Contributors		xi
Introduction		1
1 Global Disjunctions and Flying Insects		5
<i>Rienk de Jong and Cees van Achterberg</i>		
1. Introduction		6
2. Conjecture and evidence		7
3. Evolution of continents		9
4. Butterflies (Hesperioidea and Papilionoidea)		12
5. Hymenoptera		30
6. Discussion		35
Acknowledgements		37
References		38
2 Zoogeography of Freshwater Invertebrates of Southeast Asia, with Special Reference to Odonata		45
<i>Jan van Tol and Dirk Gassmann</i>		
1. Introduction		46
2. History of aquatic invertebrates		49
3. Geological history of Southeast Asia		51
4. Distribution patterns		59
5. Discussion		81
Acknowledgements		84
References		84
3 Distribution and Speciation of Megapodes (Megapodiidae) and Subsequent Development of their Breeding Behaviour		93
<i>René W.R.J. Dekker</i>		
1. Introduction		93
2. Megapode phylogenies and other relevant publications		94
3. Possible scenario of current distribution and breeding strategies		95
Acknowledgements		100
References		101

4	The Influence of Land Barriers on the Evolution of Pontoniine Shrimps (Crustacea, Decapoda) Living in Association with Molluscs and Solitary Ascidians	103
	<i>Charles H.J.M. Fransen</i>	
	1. Introduction	104
	2. Pontoniine shrimps	105
	3. Processes	106
	4. Distributional patterns	109
	References	113
5	Delineation of the Indo-Malayan Centre of Maximum Marine Biodiversity: The Coral Triangle	117
	<i>Bert W. Hoeksema</i>	
	1. Introduction	118
	2. The Indo-West Pacific Region	121
	3. A triangular Indo-West Pacific biodiversity hotspot?	122
	4. Marine biodiversity patterns among various taxa	125
	5. Processes affecting marine biodiversity	141
	6. Conclusions	154
	Acknowledgements	155
	References	155
6	Fauna Development of Larger Benthic Foraminifera in the Cenozoic of Southeast Asia	179
	<i>Willem Renema</i>	
	1. Introduction	180
	2. Genera included	183
	3. The East Indian letter classification	186
	4. Correlation to plankton foraminifera zonal schemes and European stage names	190
	5. Remarks on some stratigraphic occurrences	191
	6. Generic diversity of the Indo-West Pacific as compared to Europe	198
	7. Regional distribution and fauna provinces	205
	8. Conclusions	207
	References	209
7	The Role of Spain in the Development of the Reef Brachiopod Faunas During the Carboniferous	217
	<i>Cor F. Winkler Prins</i>	
	1. Introduction	218
	2. The Cantabrian Mountains	218

3.	Discussion of the brachiopod faunas from the Cantabrian Mountains	224
4.	Relation with other areas	231
5.	Conclusions	238
	Acknowledgements	238
	References	238
8	Contrasting Patterns and Mechanisms of Extinction during the Eocene–Oligocene Transition in Jamaica	247
	<i>Stephen K. Donovan, Roger W. Portell, and Daryl P. Domning</i>	
1.	Introduction	248
2.	Tectonics and palaeogeography	249
3.	Marine environment	251
4.	Terrestrial environment	259
5.	Discussion	262
6.	Conclusions	266
	Acknowledgements	266
	References	267
9	Long-Lived Lake Molluscs as Island Faunas: A Bivalve Perspective	275
	<i>Frank P. Wesselingh</i>	
1.	Introduction	276
2.	Corbulid radiations in Miocene Lake Pebas (Western Amazonia)	277
3.	An overview of long-lived lake bivalve radiations	288
4.	Discussion	304
5.	Conclusions	309
	Acknowledgements	309
	References	310
10	Patterns in Insular Evolution of Mammals: A Key to Island Palaeogeography	315
	<i>John de Vos, Lars W. van den Hoek Ostende, and Gert D. van den Bergh</i>	
1.	Introduction	316
2.	Gargano, island faunas on the present mainland	318
3.	The Greek Isles, a developing archipelago	320
4.	Southeast Asia	326
5.	Observations and remarks	334
	Acknowledgements	336
	References	337

11	Islands from a Snail's Perspective	347
	<i>E. Gittenberger</i>	
1.	Introduction	348
2.	Land surrounded by water	348
3.	Highlands surrounded by lowlands	353
4.	Stable versus varying temperature, humidity, and light conditions	355
5.	Calcareous surrounded by non-calcareous soils or rocks	358
6.	Discussion	358
	Acknowledgements	360
	References	360
12	Morphological and Genetical Differentiation of Lizards (<i>Podarcis bocagei</i> and <i>P. hispanica</i>) in the Ria de Arosa Archipelago (Galicia, Spain) resulting from Vicariance and Occasional Dispersal	365
	<i>J.W. Arntzen and P. Sá-Sousa</i>	
1.	Introduction	366
2.	Material and methods	369
3.	Results	376
4.	Discussion	383
	Acknowledgements	394
	References	394
