

Contents

Preface	vii
Editors	ix
Contributors	xi
 Chapter 1 Overview of Recent Developments in the Mass Spectrometry of Nucleic Acid and Constituents	1
<i>Joseph H. Banoub, Judith Miller-Banoub, Farid Jahouh, Nicolas Joly, and Patrick Martin</i>	
 Chapter 2 Mass Spectrometric Analysis of Deoxyinosines	91
<i>Antonio Triolo</i>	
 Chapter 3 Tandem Mass Spectrometry of Nucleic Acids	105
<i>Jiong Yang and Kristina Håkansson</i>	
 Chapter 4 Mass Spectrometric Application in the Study of Cyclic Nucleotides in Biochemical Signal Transduction	127
<i>Russell P. Newton</i>	
 Chapter 5 Analysis of Urinary Modified Nucleosides by Mass Spectrometry	163
<i>Ed Dudley</i>	
 Chapter 6 Mass Spectrometric Determination of DNA Adducts in Human Carcinogenesis	195
<i>Filip Lemière</i>	
 Chapter 7 Sequence Distribution of Nucleobase Adducts Studied by Isotope Labeling of DNA–Mass Spectrometry	257
<i>Natalia Y. Tretyakova</i>	
 Chapter 8 Electrospray Mass Spectrometry of Noncovalent Complexes between Small Molecule Ligands and Nucleic Acids	283
<i>Valérie Gabelica</i>	

Chapter 9	Electrospray Ionization–Mass Spectrometry for the Investigation of Protein–Nucleic Acid Interactions	303
	<i>Daniele Fabris, Kevin B. Turner, and Nathan A. Hagan</i>	
Chapter 10	Characterization of Noncovalent Complexes of Nucleic Acids with Peptides and Proteins by Mass Spectrometry	329
	<i>William Buchmann</i>	
Chapter 11	MALDI-TOF Detection of Specific Noncovalent Complexes of Highly Acidic Biomolecules with Pyrenemethylguanidinium	371
	<i>Michael Smietana, Keiichi Ohara, and Jean-Jacques Vasseur</i>	
Chapter 12	Quantitative Identification of Nucleic Acids via Signature Digestion Products Detected Using Mass Spectrometry	397
	<i>Mahmud Hossain and Patrick A. Limbach</i>	
Chapter 13	Electrospray Ionization Mass Spectrometry for the Direct Analysis of Modified Nucleosides in Small RNAs	423
	<i>C. Callie Coombs and Patrick A. Limbach</i>	
Chapter 14	LC-MS/MS for the Examination of the Cytotoxic and Mutagenic Properties of DNA Lesions <i>In Vitro</i> and <i>In Vivo</i>	431
	<i>Chunang Gu, Haizheng Hong, and Yinsheng Wang</i>	
Chapter 15	Influence of Metal Ions on the Structure and Reactivity of Nucleic Acids	445
	<i>Janna Anichina and Diethard K. Bohme</i>	
Index		479
