

Contents

Preface	v
Contributors	ix
1 Microchip Electrophoresis for DNA Separation by Wire-Imprinted Microchannels on PMMA Substrates <i>Shu-Hui Chen</i>	1
2 Fabrication of Porous Polymer Monoliths in Microfluidic Chips for Selective Nucleic Acid Concentration and Purification <i>Jay A. A. West and Brent C. Satterfield</i>	9
3 Rapid Electrical Lysis of Bacterial Cells in a Microfluidic Device <i>Hsiang-Yu Wang, Padmapriya P. Banada, Arun Bhunia, and Chang Lu</i>	23
4 On-Chip Bioassay Using Immobilized Sensing Bacteria in Three-Dimensional Microfluidic Network <i>Hirofumi Tani, Koji Maehana, and Tamio Kamidate</i>	37
5 Microchip-Based Enumeration of Human White Blood Cells <i>Pierre Floriano, Shelley Acosta, Nick Christodoulides, Shannon Weigum, and John T. McDevitt</i>	53
6 Microchip for the Diagnosis of Cervical Cancer <i>Anja Gulliksen and Frank Karlsen</i>	65
7 DNA Microchips Toward Molecular Signatures in Cervical Cancers <i>Yick F. Wong, Tony K.H. Chung, Vivian W. Wang, and David I. Smith</i>	87
8 Impedimetric Detection for DNA Hybridization Within Microfluidic Biochips <i>Louise Lingerfelt, James Karlinsey, James P. Landers, and Anthony Guiseppi-Elie</i>	103
9 Applications of Functional Protein Microarrays: Identifying Protein-Protein Interactions in an Array Format <i>Matthew A. Coleman, Peter T. Beernink, Julio A. Camarero, and Joanna S. Albala</i>	121
10 A Microchip-Based Assay for Interleukin-6 <i>Nicolaos Christodoulides, Prya Dharsham, Jorge Wong, Pierre N. Floriano, Dean Neikirk, and John T. McDevitt</i>	131

11	Allergen Microarrays for the Diagnosis of Specific IgE Against Components of Cow Milk and Hen Egg in a Multiplex Biochip-Based Immunoassay <i>Christian Harwanegg, Sabine Hutter, and Reinhard Hiller</i>	145
12	Surface Plasmon Resonance Imaging on Polypyrrole Protein Chips: Application to Streptavidin Immobilization and Immunodetection <i>Emilie Mercey, Ludivine Grosjean, Andre Roget, and Thierry Livache</i>	159
13	Protein Array-Based Multiplexed Cytokine Assays <i>Cheng C. Wang</i>	177
14	Lectin Microarrays for Glycoprotein Analysis <i>Lara K. Mahal and Kanoelani Pilobello</i>	193
15	Interaction of HIV RNA With Peptides Detected by Acoustic Shear Wave Sensor Operated in an On-Line Format <i>Anil Deisingh, Satie Siewah, Nardos Tassew, and Michael Thompson</i>	205
16	Microchip-Based Electrochemical Enzyme Immunoassays <i>Madhu Prakash Chatrathi, Greg Collins, and Joseph Wang</i>	215
