
Contents

Preface		vii
Short Communication A:		
	The Biochemical Diagnosis of Gaucher Disease <i>Lyece Yargui</i>	1
Short Communication B:		
	Modulation of Fatty Acid Molecular Species in Sulfatide and Its Precursor, Galactosylceramide in Madin-Darby Canine Kidney Cells under Osmotic Stresses <i>Yukio Niimura and Ken-ichi Nagai</i>	19
Chapter I	Gangliosides' Role in Cellular Interactions with Microbes and Immune Cells Activation <i>Luz P. Blanco</i> <i>Reviewed by: Christiane Wobus</i>	29
Chapter II	The Importance of Gangliosides in Mast Cell Biology <i>Adriana Maria Mariano Silveira e Souza,</i> <i>Maria Célia Jamur and Constance Oliver</i> <i>Reviewed by Maria Cristina Roque-Barreira</i>	53
Chapter III	Glycolipids: Biomarkers for Neural Stem and Progenitor Cells <i>Perrine Barraud and Simon RW Stott</i>	79
Chapter IV	Mycobacterial Glycolipids and Host Responses <i>Nagatoshi Fujiwara and Kazuo Kobayashi</i>	99
Chapter V	Antiglycolipid Antibodies in Autoimmune Neuropathies; New Aspects of Research <i>Susumu Kusunoki</i>	117
Chapter VI	Domain Coexistence in Multi-Component Model Membranes <i>Dolores C. Carrer</i>	133

Chapter VII	Synthetic Ceramide Analogs for Anticancer Agents <i>Hyun-Joon Ha, Won Koo Lee and Jungchan Park</i>	145
Chapter VIII	Pivotal Roles of Cholesterol and Gangliosides in Aggregation of Amyloid β -Protein <i>Katsuhiko Yanagisawa</i>	157
Chapter IX	Structures and Fungicidal Activities of Cellobiose Lipids <i>Tatyana V. Kulakovskaya, Alexander S. Shashkov, Ekaterina V. Kulakovskaya, Wladyslav I. Golubev, Alexander I. Zinin, Yury E. Tsvetkov, Alexey A. Grachev and Nikolay E. Nifantiev</i>	171
