

CONTENTS

Preface		vii
Chapter 1	Functional Significance of Active Dye Exclusion by Human Hematopoietic Progenitors after Short-Term Culture <i>Vincent Kindler, Michel A. Duchosal, Maya von Planta, Véronique Vallet, Domizio Suva and Caroline Soulas</i>	1
Chapter 2	The Effects of Ex Vivo Expansion on the Rheology of Umbilical Cord Blood-Derived CD34+ Cells <i>Korashon L. Watts, Vijay Reddy and Roger Tran-Son-Tay</i>	19
Chapter 3	Comparison of the Differentiation Potential of Cell Populations Isolated from Human Lipoaspirate, Trabecular Bone Tissue and Periosteal Tissue <i>Klaus Gossens, Jan-Thorsten Schantz, Dietmar Werner Hutmacher and Thiam Chye Lim</i>	31
Chapter 4	Adult Neural Stem Cells and Their Niches: Developmental and Therapeutic Implications <i>Philippe Taupin</i>	51
Chapter 5	An Analysis of the Arguments Underpinning UK Embryonic Stem Cell Legislation on the Embryo's Status <i>Jan Deckers</i>	59
Chapter 6	A Tetracycline-Inducible Lentivector System Based on EF1- α Promoter and Native Tetracycline Repressor Allows In Vivo Gene Induction in Implanted ES Cells <i>David M. Suter, Xavier Montet, Diderik Tirefort, Laetitia Cartier and Karl-Heinz Krause</i>	81
Chapter 7	Bone Marrow and Adipose Tissue-Derived Mesenchymal Stem Cells: How Close Are They? <i>Leandra S. Baptista, Carolina G. S. Pedrosa, Karina R. Silva, Ivone B. Otazú, Christina M. Takiya, Hélio S. Dutra, César Cláudio-da-Silva, Radovan Borojevic and M. Isabel D. Rossi</i>	95

Chapter 8	From the Bone Marrow to the Periphery: The Ontogeny and Function of Dendritic Cell Populations	117
	<i>A. I. Proietto and Li Wu</i>	
Chapter 9	Advances Towards the Development of a Stem Cell Therapy for Hirschsprung's Disease	137
	<i>Daniel B. Hawcutt, Richard M. Lindley, Simon E. Kenny and David H. Edgar</i>	
Chapter 10	The Role of Stem Cells in Repair of Acute Lung Injury	159
	<i>Ellen L. Burnham</i>	
Index		181
