

CONTENTS

Preface		vii
Short Communications		
	Transgenic Plants and Developing Nations: A 21 st Century Challenge	xiii
	<i>André Martinho de Almeida</i>	
	DNA Transfection and Expression Mediated by Arginine-rich Intracellular Delivery Peptides in Plant Cells	xix
	<i>Han-Jung Lee, Jyh-Ching Chou, Chung-Pin Chen, Betty Revon Liu</i>	
Chapter 1	Wheat Transformation or Heterologous Transformation? Functional Evaluation of Wheat Abiotic Stress-responsive Genes and their Interaction in Transgenic Dicot Plant	1
	<i>Shigeo Takumi, Akihiro Terashima, Yumeto Kurahashi, Chikako Egawa and Fuminori Kobayashi</i>	
Chapter 2	Transgenic Ornamental Plants: Major Achievements, Perspectives and Possibilities	33
	<i>Jaime A. Teixeira da Silva, Michio Tanaka</i>	
Chapter 3	Transgenic Plants with Alternation in Lignin Biosynthesis	53
	<i>Qing-Hu Ma</i>	
Chapter 4	Novel Approaches to Improving Plant Transformation	79
	<i>A. Boyko and I. Kovalchuk</i>	
Chapter 5	Marker-free Technologies for Transgenic Plant Research	105
	<i>Renlin Xu and Shu Wei</i>	
Chapter 6	Detection of Transgene Copy Number in Durum Wheat Transgenic Lines Using Real-Time PCR	127
	<i>Agata Gadaleta, Angelica Giancaspro, Maria Francesca Cardone, Maria C. Guastadisegni, Mario Ventura, Antonio Blanco</i>	

Chapter 7	Engineering of Broad Spectrum Resistance to Viral Infections in Transgenic Plants <i>Ekaterina A. Trifonova</i>	147
Chapter 8	Bt Crops under Invasion of Bt-resistant Insects: Modeling the Crop Production <i>Alexander B. Medvinsky, Maria M. Gonik, Bai-Lian Li, Yuri V. Tyutyunov, Alexey V. Rusakov and Horst Malchow</i>	159
Chapter 9	The Use of Transgenic Plants to Study the Biosynthesis and Remodulation of Cell Wall Polysaccharides <i>Zoran Minic</i>	173
Index		195
