

CONTENTS

Preface		vii
Chapter 1	2n Pollen Formation: 40 Cytological Mechanisms of Nuclear Meiotic Restitution <i>Nataliya V. Shamina</i>	1
Chapter 2	Pollen Biology and Hybridization Process: Open Problem in Walnut <i>Paola Pollegioni, Keith Woeste, Irene Olimpieri, Fulvio Ducci and Maria Emilia Malvolti</i>	65
Chapter 3	Variable Sized Pollen Grains due to Impaired Male Meiosis in the Cold Desert Plants of North West Himalayas (India) <i>Vijay Kumar Singhal and Puneet Kumar</i>	101
Chapter 4	Capture of Male Gamete Dynamics in Pollen Tubes <i>Tomonari Hirano and Yoichiro Hoshino</i>	127
Chapter 5	Sunflower Pollen: Theoretical and Practical Aspects <i>V. Popov, T. Dolgova and V.V. Dokuchaev</i>	135
Chapter 6	Regulation of Pollen Fertility in the '9E'-CMS-Inducing Cytoplasm of Sorghum: Interaction of Plant Genotype with Environment <i>L.A. Elkonin, M.I. Tsvetova, V.V. Kozhemyakin and O.P. Kibalnik</i>	157
Chapter 7	Pollen Development and Ubiquitin Proteasome System <i>Sandrine Bonhomme</i>	179
Chapter 8	Pollen Vigor and Seed Production in Sympatric Population of Two Orchid Species and their Hybrids <i>Elisa Vallius</i>	197
Chapter 9	Microspores and their Applications in Basic and Applied Plant Sciences <i>Mehran E. Shariatpanahi and Alisher Touraev</i>	217

Chapter 10	The Role of Anion Channels in Pollen Germination and Tube Growth <i>Maria Breygina, Anna Smirnova, Natalie Matveeva and Igor Yermakov</i>	235
Chapter 11	Phenotypic Plasticity in Pollen and Ovule Production of <i>Nicotiana Longiflora</i> and <i>N. Plumbaginifolia</i> (Solanaceae): Implications for Plant Mating System Variability <i>Figueroa-Castro Dulce María, Timothy Holtsford and Angela Etcheverry</i>	255
Chapter 12	A Critical Presentation of Innovative Techniques for Automated Pollen Identification in Aerobiological Monitoring Networks <i>Rossana Dell'Anna, Antonella Cristofori, Elena Gottardini and Francesca Monti</i>	273
Chapter 13	Orbicules in Relation to the Pollination Modes <i>B.G. Galati, M.M Gotelli, S. Rosenfeldt J.P. Torretta and G. Zarlavsky</i>	289
Chapter 14	Hybridization Barriers between Cotton (<i>Gossypium Hirsutum</i>) and Species of the Malvaceae Family <i>Stella K. Kantartzi</i>	305
Chapter 15	Somatic Embryogenesis in Dandelions (<i>Taraxacum</i>) using Anther Cultures <i>Luděk Závěský</i>	317
Chapter 16	Aerobiological Notes of Chenopodiaceae-Amaranthaceae Pollen in the Middle-West of Spain <i>David Rodríguez de la Cruz, Estefanía Sánchez-Reyes and José Sánchez-Sánchez</i>	331
Chapter 17	Pollen Viability in Hybrid Swarm Populations of <i>Pinus Mugo</i> × <i>Pinus Sylvestris</i> in Slovakia <i>A. Kormutak, B. Vookova, T. Salaj, J. Salaj, V. Čamek, P. Boleček, P. Maňka and D. Gömöry</i>	341
Chapter 18	Aperture Ontogeny in the Proteaceae <i>Grevillea Rosmarinifolia</i> <i>Béatrice Albert and Sophie Nadot</i>	349
Index		355
