

Contents

Abbreviations.....	1
Introduction.....	2
GTPases: structural elements, functional cycle and regulation.....	5
Ribosomal structural elements involved in the regulation of activity of translation GTPases.....	13
Initiation.....	15
Elongation.....	20
Termination.....	34
Recycling.....	38
Unconventional translational GTPases in bacteria.....	39
Interference with trGTPases: antibiotics and toxins derailing the GTPase cycle.....	41
<i>Agents interfering with EF-Tu</i>	42
<i>Agents interfering with EF-G / eEF2</i>	44
<i>Agents, interfering with the ribosomal elements involved in trGTPase binding/activation</i>	48
trGTPases: an evolutionary perspective.....	50
References:.....	54
