Serpinopathies Foreword	xxv
Serpinopathies Preface	xxvii

SECTION I OVERVIEW OF THE SERPIN SUPERFAMILY

Chapter 1	Evolution and Classification of the Serpin Superfamily	1
	<i>James A. Irving, Lisa D. Cabrita, Dion Kaiserman, Margaret M. Worrall and James C. Whisstock</i>	
Chapter 2	Serpin Conformations	35
	<i>Mary C. Pearce, Robert N. Pike, Arthur M. Lesk and Stephen P. Bottomley</i>	
Chapter 3	Mechanisms of Serpin Inhibition	67
	<i>Peter G. W. Gettins</i>	

SECTION II LESSONS FROM MODEL ORGANISMS

Chapter 4	Mouse Serpins and Transgenic Studies	101
	<i>David J. Askew, Paul Coughlin and Phillip I. Bird</i>	
Chapter 5	Serpins in Prokaryotes	131
	<i>Qingwei Zhang, Ruby Law, Ashley M. Buckle, Lisa Cabrita, Sheena McGowan, James A. Irving, Noel G. Faux, Arthur M. Lesk, Stephen P. Bottomley and James C. Whisstock</i>	

Chapter 6	New Lessons from Poxvirus Serpins	163
	<i>Peter C. Turner, Priscilla F. McAuliffe, Amy L. MacNeill, and Richard W. Moyer</i>	
Chapter 7	The Intracellular Serpins of <i>Caenorhabditis elegans</i>	195
	<i>Stephen C. Pak, Yuko. S. Askew and Cliff J. Luke</i>	
Chapter 8	<i>Drosophila</i> Serpins: Regulatory Cascades in Innate Immunity and Morphogenesis	207
	<i>David Gubb, Andrew Robertson, Tim Dafforn, Laurent Troxler and Jean-Marc Reichhart</i>	
Chapter 9	Serpins in a Lepidopteran Insect, <i>Manduca sexta</i>	229
	<i>Michael R. Kanost</i>	
Chapter 10	MENT, a Chromatin-Associated Serpin from Avian Blood Cells: Structure and Function	243
	<i>Sergei A. Grigoryev, Yaroslava A. Bulynko, Robert N. Pike and James C. Whisstock</i>	
Chapter 11	Uterine Serpins	261
	<i>Peter J. Hansen, Saban Tekin and Maria B. Padua</i>	
Chapter 12	Plant Serpins	279
	<i>Jørn Hejgaard and Thomas H. Roberts</i>	
SECTION III	SERPIN PHYSIOLOGY AND PATHOPHYSIOLOGY	
Chapter 13	Serpins, Apoptosis and Other Aspects of Cell Death	301
	<i>Fiona L. Scott</i>	
Chapter 14	Serpins in Malignancy: Tumor Cell Invasion, Motility and Angiogenesis	337
	<i>Philip A. Pemberton, Christian Schem, Nicolai Maass and Ming Zhang</i>	

Chapter 15	Serpins in Malignancy: Prognostic Indicators	363
	<i>Hiroshi Kato, Yuko S. Askew, Shugo Nawata, Akihiro Murakami, Yoshinori Suminami and Gary Clayman</i>	
Chapter 16	SERPINB7 (Megsin) Nephropathy	383
	<i>Toshio Miyata</i>	
Chapter 17	Serpin-Protein and Receptor Interactions	393
	<i>Toni M. Antalis and Dudley K. Strickland</i>	
Chapter 18	Serpins and the Metabolic Syndrome	411
	<i>Jun Wada</i>	
Chapter 19	Serpin Interactions with Bacterial Peptidases	425
	<i>Jan Potempa, Tomasz Kantyka and Daniel Nelson</i>	
SECTION IV CONGENITAL DEFICIENCIES AND SERPINOPATHIES		
Chapter 20	The Serpinopathies and Respiratory Disease	445
	<i>David A. Lomas, Didier Belorgey, Elena Miranda, Meera Mallya, Peter Hägglöf, Lynda K. Sharp, Russell L. Phillips, Richard Page, Mark J. Davies and Damian C. Crowther</i>	
Chapter 21	Liver Disease in α_1-Antitrypsin Deficiency	483
	<i>David H. Perlmutter</i>	
Chapter 22	Regulation of Hemostasis by Heparin-Binding Serpins	509
	<i>Frank C. Church, Robert N. Pike, Douglas M. Tollefsen, Ashley M. Buckle, Angelina V. Ciaccia and Steven T. Olson</i>	
Chapter 23	C1 Inhibitor: Structure, Function, Biologic Activity and Angioedema	555
	<i>Philip A. Patston and Alvin E. Davis III</i>	

Chapter 24	Neuroserpin in Neurological Disease	593
	<i>Manuel Yepes and Daniel A. Lawrence</i>	
Chapter 25	Serpins and Alzheimer's Disease	619
	<i>H. Tonie Wright and Sabina Janciauskiene</i>	
Index		635
