

Contents

	<i>Preface</i>	<i>v</i>
One	The World of Biological Macromolecules	1
Two	Cellular Systems Biology	31
Three	The Dynamics of Single, Isolated Biological Macromolecules	51
Four	Dynamics of Interacting Biological Macromolecules	81
Five	Toward a Whole Cell Description	107
A	The Euler Angles	125
B	Liouville Equation, Fokker-Planck Equation (FP Brownian Dynamics), and Smoluchowski Equation (Sm Brownian Dynamics)	131
	Index	149
