Introduction

xvii

CHAPTER 1	The World of the Microorganism	1
	Types of Microorganisms	2
	What Is a Microorganism?	4
	What's in a Name: Naming and Classifying	6
	How Small Is a Microorganism?	7
	Your Body Fights Back	8
	History of the Microscope	9
	How Do Organisms Appear?	10
	Germ Theory	12
	Vaccination	15
	The Method of Science	18
	Quiz	20
CHAPTER 2	The Chemical Elements of Microorganisms	21
	Everything Matters	22
	Chemical Elements and the Atom	23
	A Dinner Table of Elements: The Periodic Table	24
	The Glowing Tale of Isotopes	27
	Around They Go: Electronic Configuration	27
	Before James, There Was Bond . . . Chemical Bond	28
	Decoding Chemical Shorthand	31
	I Just Want to See Your Reaction	31
	Molarity: Hey, There's a Mole among Us	34
	An Unlikely Pair: Inorganic and Organic	35
	The Blueprint of Protein Synthesis	40

	Types of Nucleic Acids	41
	The Powerhouse: ATP	41
	Quiz	43
CHAPTER 3	Observing Microorganisms	45
	Size Is a Matter of Metrics	46
	Here's Looking at You	49
	What Big Eyes You Have: Magnification	50
	The Microscope	51
	Measuring Magnification	53
	Preparing Specimens	58
	Quiz	63
CHAPTER 4	Prokaryotic Cells and Eukaryotic Cells	65
	Six Processes of Life	66
	Prokaryotic Cells	67
	Eukaryotic Cells	82
	Quiz	87
CHAPTER 5	Chemical Metabolism	89
	Cellular Metabolism	90
	Riding the Metabolism Cycle	90
	Catabolic and Anabolic: The Only Reactions You Need	90
	A Little Give and Take: Oxidation-Reduction	91
	Making Power: ATP Production	91
	What's Your Name: Naming and Classifying Enzymes	92
	Brewing Up Proteins	92
	The Magic of Enzymes: Enzyme Activities	93
	The Krebs Cycle	97
	Fermentation	99
	Photosynthesis	100
	Quiz	102
CHAPTER 6	Microbial Growth and Controlling Microbial Growth	103
	Chemical Requirements for Microbial Growth	104
	Culture Media	106
	Phases of Growth	109
	Measurements of Microbial Growth	111
	Establishing Bacterial Numbers by Indirect Methods	112
	Controlling Microbial Growth	112
	Microbial Death Rates	113

Action of Antimicrobial Agents	114
Chemical Agents that Control Microbial Growth	114
Quiz	117

CHAPTER 7	Microbial Genetics	119
	Genetics	120
	DNA Replication: Take My Genes, Please!	121
	Protein Synthesis	123
	Controlling Genes: You're under My Spell	125
	Mutations: Not a Pretty Copy	126
	Quiz	129

CHAPTER 8	Recombinant DNA Technology	131
	Genetic Engineering: Designer Genes	132
	Gene Therapy: Makes You Feel Better	134
	DNA Fingerprinting: Gotcha	135
	Recombinant DNA Technology and Society: Too Much of a Good Thing	136
	Quiz	138

CHAPTER 9	Classification of Microorganisms	139
	Taxonomy: Nothing to Do with the Internal Revenue Service	140
	Nomenclature of Taxonomy: Name Calling	141
	Classification: All Natural	146
	Quiz	148

CHAPTER 10	The Prokaryotes: Domains Archaea and Bacteria	149
	Archaea	150
	Aerobic/Microaerophilic, Motile, Helical/Vibroid, Gram-Negative Bacteria	155
	Gram-Negative Aerobic Rods and Cocci	156
	Facultative Anaerobic Gram-Negative Rods	159
	Anaerobic Gram-Negative Cocci and Rods	161
	Rickettsias and Chlamydias	161
	Mycoplasmas	162
	Gram-Positive Cocci	163
	Endospore-Forming Bacteria	165
	Gram-Positive Regular Non-Spore-Forming Bacilli	167
	Gram-Positive Irregular Non-Spore-Forming Bacilli	167
	Mycobacteria	168
	Nocardia	168
	Quiz	169

CHAPTER 11	The Eukaryotes: Fungi, Algae, Protozoa, and Helminths	171
	Fungi	172
	Algae	175
	Protozoa	181
	Helminths	187
	Quiz	192
CHAPTER 12	Viruses, Viroids, and Prions	193
	Viruses	194
	Viroids	202
	Prions	202
	Quiz	205
CHAPTER 13	Epidemiology and Disease	207
	What Is Epidemiology?	208
	Classification of Disease	209
	Infection Sites	210
	Disease Transmission	211
	The Development of Disease	215
	Epidemiologic Studies	216
	Control of Communicable Diseases	216
	Nosocomial Infections	217
	Who Is Susceptible?	218
	Prevention and Control of Nosocomial Infections	218
	Quiz	219
CHAPTER 14	Immunity	221
	What Is Immunity?	222
	Types of Immunity	224
	A Closer Look at Antigens	225
	A Closer Look at Binding	227
	B Cells (B Lymphocytes)	228
	Lasting Immunity	230
	Antibodies Used for Diagnosing Diseases	230
	Chemical Messengers	231
	T Cells (T Lymphocytes)	231
	Macrophages and Natural Killer Cells	232
	Quiz	233
CHAPTER 15	Vaccines and Diagnosing Diseases	235
	What Is a Vaccine?	236
	Types of Vaccines	237

	Developing a Vaccine	239
	Diagnosing Diseases	239
	Quiz	242
CHAPTER 16	Antimicrobial Drugs	243
	Chemotherapeutic Agents: The Silver Bullet	244
	Antimicrobial Activity: Who to Attack?	245
	The Attack Plan	247
	Exploring Antimicrobial Drugs	249
	Chemotherapy Tests (Antibiotic Sensitivity Tests)	258
	Quiz	260
	<i>Final Exam</i>	261
	<i>Answers to Quizzes and Final Exam</i>	271
	<i>Index</i>	275
