ix

1. **Cis-Regulatory Elements and Epigenetic Changes Control Genomic Rearrangements of the IgH Locus** **1**

Thomas Perlot and Frederick W. Alt

1. Introduction	2
2. The Immunoglobulin Heavy Chain Locus	3
3. V(D)J Recombination During B-Cell Development	4
4. Class Switch Recombination and Somatic Hypermutation	7
5. IgH Rearrangements and Allelic Exclusion	8
6. Accessibility Control	10
7. IgH Locus Control Through Cis-Regulatory Elements	16
8. Conclusions	23
Acknowledgments	23
References	24

2. **DNA-PK: The Means to Justify the Ends?** **33**

Katheryn Meek, Van Dang, and Susan P. Lees-Miller

1. Introduction	34
2. Composition	36
3. DNA Binding and Kinase Activation	37
4. Structural Studies of DNA-PK	38
5. Targets of DNA-PK's Enzymatic Activity	39
6. DNA-PK's Autophosphorylation is Functionally Complex	39
7. Autophosphorylation Within Two Clusters Reciprocally Regulates DNA End Access	40
8. Further DNA-PK Autophosphorylation is Required During NHEJ	43
9. Model of DNA-PK Activation	44
10. End Processing to Promote End Conservation	47
11. Does DNA-PK Regulate Dsbr Repair Pathway Choice?	49
12. Why is DNA-PK So Abundant?	50
References	52

3. Thymic Microenvironments for T-Cell Repertoire Formation	59
Takeshi Nitta, Shigeo Murata, Tomoo Ueno, Keiji Tanaka, and Yousuke Takahama	
1. Introduction	60
2. Trafficking of Developing Thymocytes	64
3. Cortical Microenvironment	68
4. Medullary Microenvironment	71
5. Concluding Remarks	78
Acknowledgments	79
References	79
4. Pathogenesis of Myocarditis and Dilated Cardiomyopathy	95
Daniela Cihakova and Noel R. Rose	
1. Human Myocarditis	96
2. The Evidence for an Autoimmune Process in Myocarditis	100
3. Mouse Models of Myocarditis	102
4. Role of Proinflammatory Cytokines in Myocarditis	104
5. Role of T Helper Cells in Myocarditis	104
6. The Divergent Role of Macrophages in Myocarditis	107
7. Conclusions/Directions for Future Research	108
Acknowledgments	109
References	109
5. Emergence of the Th17 Pathway and Its Role in Host Defense	115
Darrell B. O'Quinn, Matthew T. Palmer, Yun Kyung Lee, and Casey T. Weaver	
1. Introduction	116
2. Emergence of the Th17 Pathway	118
3. Functions of the Th17-Derived Cytokines	125
4. IL-23/IL-17-Mediated Innate Immunity	128
5. Th17 Cells and Innate Immunity	129
6. Th17 Cells and Acquired Immunity	131
7. IL-23/IL-17-Mediated Responses in Specific Microbial Infections	132
8. Closing Remarks	147
References	148
6. Peptides Presented <i>In Vivo</i> by HLA-DR in Thyroid Autoimmunity	165
Laia Muixí, Iñaki Alvarez, and Dolores Jaraquemada	
1. Introduction	166
2. Natural Peptides: The Constitutive Ligands of MHC Molecules	173
3. Natural Ligands for HLA Class II in Autoimmune Thyroid Tissue	177

4. Concluding Remarks	200
Acknowledgments	201
References	201
