1. TSLP in Epithelial Cell and Dendritic Cell Cross Talk 1

Yong-Jun Liu

1. Introduction	2
2. Thymic Stromal Lymphopoietin (TSLP) and TSLP Receptor (TSLPR)	2
3. TSLP in Lymphocyte Development in Mice	3
4. TSLP Activates Human Myeloid Dendritic Cells	4
5. TSLP in Allergic Inflammation	5
6. TSLP in Peripheral CD4 ⁺ T Cell Homeostasis	12
7. TSLP in the Development of Regulatory T Cells in Thymus	14
8. Summary and Future Perspectives	17
Acknowledgments	19
References	20

2. Natural Killer Cell Tolerance: Licensing and Other Mechanisms 27

A. Helena Jonsson and Wayne M. Yokoyama

1. Introduction: Natural Killer Cells and "Missing Self"	29
2. NK Cell Receptors: The KIR and Ly49 Families	29
3. Early Models of NK Cell Self-Tolerance	31
4. NK Cell Licensing	34
5. NK Cell Tolerance in MHC Class I Chimeric and Mosaic Mice	53
6. Other Safeguards of NK Cell Tolerance to Self	57
7. NK Cell Tolerance Mechanisms in the Clinic	63
8. Concluding Remarks	66
Acknowledgments	67
References	67

3. Biology of the Eosinophil 81

Carine Blanchard and Marc E. Rothenberg

1. The Eosinophil: From a Hematopoietic Stem Cell to a Mature Eosinophil	82
2. A Role for Eosinophils at Baseline	88
3. Eosinophils and Immune Regulation	90

4. Eosinophil Trafficking	91
5. Role of Eosinophils in Disease	96
6. Antieosinophil Therapeutics	105
Acknowledgments	108
References	108
 4. Basophils: Beyond Effector Cells of Allergic Inflammation	123
John T. Schroeder	
1. Introduction	124
2. Development and Inflammatory Mediator Content	125
3. Cell-Surface Markers	127
4. Human Basophil Cytokine Secretion	134
5. Basophil Participation in Human Disease	139
6. Basophils in Mouse Models of Th2 Inflammation	146
7. Concluding Remarks	151
References	152
 5. DNA Targets of AID: Evolutionary Link Between Antibody Somatic Hypermutation and Class Switch Recombination	163
Jason A. Hackney, Shahram Misaghi, Kate Senger, Christopher Garriss, Yonglian Sun, Maria N. Lorenzo, and Ali A. Zarrin	
1. Introduction	164
2. Experimental Systems to Study S Regions	167
3. S Regions	168
4. V Regions	174
5. Sequence Comparison of V, S, and Non-Ig AID Targets	174
6. The Susceptibility of Non-S Regions to Mediate CSR	179
7. AID Recruitment to Target Sequences	180
8. Role of DNA Double Strand Break (DSB)	180
9. Evolutionary Link between SHM and CSR	182
References	183
 6. Interleukin 5 in the Link Between the Innate and Acquired Immune Response	191
Kiyoshi Takatsu, Taku Kouro, and Yoshinori Nagai	
1. Introduction	193
2. IL-5 and Signal Transduction	196
3. IL-5-Receptor-Mediated Signaling	201
4. IL-5 Augments Innate Immune Response	204

5. IL-5 Modulates Acquired Immune Response	208
6. IL-5 Links Innate and Acquired Immunity In Disease Model	216
7. Future Perspectives	220
Acknowledgments	222
References	222
