1. Antigen Presentation by CD1: Lipids, T Cells, and NKT Cells in Microbial Immunity 1

Nadia R. Cohen, Salil Garg, and Michael B. Brenner

1. Introduction 3
2. The CD1 Antigen Presentation Pathway: Chemistry, Structure, and Cell Biology 3
3. Group I CD1: CD1a, b, and c Molecules and T Cells 28
4. Group II CD1: CD1d-Restricted T Cells: Activation, Function, and Role in Antimicrobial Immunity 35
5. Role of CD1d-Restricted NKT Cells in Specific Microbial Infections 49
6. Conclusions 68
- Acknowledgments 70
- References 70

2. How the Immune System Achieves Self–Nonself Discrimination During Adaptive Immunity 95

Hong Jiang and Leonard Chess

1. Introduction 97
2. Is Peripheral Immune Regulation Necessary for Self–Nonself Discrimination? 99
3. Self–Nonself Discrimination Achieved During Thymic Negative Selection Determines How the Adaptive Immunity is Regulated in the Periphery to Maintain Self-tolerance 109
4. The Impact of the Conceptual Framework of the “Avidity Model” on the Development and Control of Pathogenic Autoimmunity 118
- Acknowledgments 127
- References 127

3. Cellular and Molecular Mechanisms in Atopic Dermatitis 135

Michiko K. Oyoshi, Rui He, Lalit Kumar, Juhan Yoon, and Raif S. Geha

1. Introduction 136
2. Physiology and Immunology of Normal Skin 137

3. Clinical Aspects of AD	143
4. Epidemiology	151
5. Genetics	153
6. Pathophysiology of AD	158
7. Animal Models of AD	171
8. Treatment of AD	201
9. Conclusion	203
Acknowledgments	204
References	204
4. Micromanagers of Immune Cell Fate and Function	227
Fabio Petrocca and Judy Lieberman	
1. Introduction	228
2. miRNA Biogenesis	228
3. miRNA Regulation of Gene Expression	229
4. miRNA Target Genes	230
5. miRNAs Regulate Hematopoietic Differentiation and Immune Function	231
6. miRNA Regulation of Lymphocyte Development and Function	234
7. miRNA Regulation of Inflammatory Responses	235
8. Viruses Harness the miRNA Machinery	235
9. Some Viral miRNAs Mimic Host miRNAs	237
10. Host miRNAs also Regulate Viral Replication	237
11. Prospects for Manipulating miRNA Function for Immunomodulatory Therapy	238
Acknowledgment	239
References	239
5. Immune Pathways for Translating Viral Infection into Chronic Airway Disease	245
Michael J. Holtzman, Derek E. Byers, Lorilyn A. Benoit, John T. Battaile, Yingjian You, Eugene Agapov, Chae-ho Park, Mitchell H. Grayson, Edy Y. Kim, and Anand C. Patel	
1. Introduction	246
2. Background for the Model	249
3. cDC T Cell Immune Axis	251
4. NKT Cell–Macrophage Immune Axis	258
5. Summary	269
Acknowledgments	272
References	272
