

CONTENTS

CONTRIBUTORS TO VOLUME 55	vii
CONTENTS OF VOLUMES 35-54	ix

Carpel Development

CRISTINA FERRÁNDIZ, CHLOÉ FOURQUIN,
NATHANAEL PRUNET, CHARLIE P. SCUTT, EVA SUNDBERG,
CHRISTOPHE TREHIN AND AURÉLIE C. M.
VIALETTE-GUIRAUD

I. Introduction	3
II. The Origin of the Carpel.	5
III. The Basic Developmental Plan of Lateral Organs	10
IV. The Basic Concepts of the <i>Arabidopsis</i> Gynoecium and Fruit.....	17
V. Floral Meristem Termination in the Central Zone of the <i>Arabidopsis</i> Gynoecium.....	32
VI. Carpel Diversification in the Angiosperms	38
VII. General Conclusions	53
Acknowledgements	54
References	55

Root System Architecture

PAUL A. INGRAM AND JOCELYN E. MALAMY

I. Introduction	76
II. Intrinsic Determinants of Root System Architecture.....	78
III. Environmental Factors That Influence Root System Architecture	85
IV. Plant Hormones and Carbohydrates: The Bridge Between Intrinsic and Response Pathways.....	90
V. Conclusions.....	105
References.....	106

Functional Genomics of Cacao

FABIENNE MICHELI, MARK GUILTINAN, KARINA PERES
GRAMACHO, MIKE J. WILKINSON, ANTONIO VARGAS
DE OLIVEIRA FIGUEIRA, JÚLIO CÉZAR DE MATTOS CASCARDO,
SIELA MAXIMOVA AND CLAIRE LANAUD

I. Introduction.....	121
II. Molecular Resources for Genomics Studies.....	125
III. Genomics of Cacao Under Natural Conditions, Submitted to Mechanical Wounding or Challenged with Elicitors.....	128
IV. Omics of the Cacao- <i>M. perniciosa</i> Interactions.....	129
V. Genomics of the Cacao- <i>Phytophthora</i> Interaction.....	135
VI. Cacao Gene Expression Under Other Biotic and Abiotic Conditions.....	138
VII. Gene Expression Related to Cacao Quality Flavour.....	141
VIII. <i>In Vitro</i> Culture and Genetic Transformation, and Their Applications in Functional Genomics Studies.....	142
IX. Epigenetics and Regulation of the Cacao Genome.....	150
X. Molecular Genetic Studies of Important Cacao Traits as Support for Genomic Studies.....	155
XI. Bioinformatic Resources for Cacao Functional Genomics.....	161
XII. Cacao Genetics Research Community.....	162
XIII. Conclusion.....	163
Acknowledgement.....	163
References.....	163

The Ecological Water-Use Strategies of Succulent Plants

R. MATTHEW OGBURN AND ERIKA J. EDWARDS

I. Introduction.....	180
II. The Diversity and Distribution of Succulent Plants.....	183
III. Ecological Strategies.....	192
IV. New Challenges for Succulence Research: Understanding Variation and Placing Succulence in an Evolutionary Context.....	215
Acknowledgements.....	219
References.....	219
Author Index.....	227
Subject Index.....	247
