1. Programmed Necrosis: From Molecules to Health and Disease	1
Lorenzo Galluzzi, Tom Vanden Berghe, Nele Vanlangenakker, Sabrina Buettner, Tobias Eisenberg, Peter Vandenabeele, Frank Madeo, and Guido Kroemer	
1. Introduction	2
2. Initiation of Necroptosis	4
3. Execution of Necroptosis	10
4. Programmed Necrosis in Model Organisms	16
5. Necroptosis in Health and Disease	23
6. Concluding Remarks	25
References	25
2. Physiological Cartilage Tissue Engineering: Effect of Oxygen and Biomechanics	37
Rainer J. Egli, Ellen Wernike, Sibylle Grad, and Reto Luginbühl	
1. Introduction	39
2. Oxygen and Cartilage	40
3. Mechanics	44
4. Components of Cartilage Tissue Engineering	51
5. Mechanical Stimulation under Reduced Oxygen Tension	61
6. Discussion and Outlook	64
References	66
3. New Insights into the Regulation of Stomatal Opening by Blue Light and Plasma Membrane H⁺-ATPase	89
Toshinori Kinoshita and Yuki Hayashi	
1. Introduction	90
2. Properties of Blue Light-Induced Stomatal Opening	92
3. Activation of the Plasma Membrane H ⁺ -ATPase by Blue Light	93

4. Regulatory Mechanism of the Plasma Membrane H^+ -ATPase	95
5. Identification of the Blue Light Receptor for Stomatal Opening	100
6. Blue Light Signaling in Stomatal Guard Cells	103
7. Concluding Remarks	107
References	108
4. Significance of Talin in Cancer Progression and Metastasis	117
Andreas Desiniotis and Natasha Kyprianou	
1. Introduction	119
2. ECM in Control of Microenvironment	120
3. Epithelial to Mesenchymal Transition	123
4. Anoikis Resistance in Metastasis	127
5. Focal-Adhesion Complex: Securing Cell-ECM Interactions	128
6. Concluding Remarks and Future Directions	137
Acknowledgments	137
References	137
5. New Insights into the Mechanisms and Roles of Cell-Cell Fusion	149
Jessica H. Shinn-Thomas and William A. Mohler	
1. Introduction	150
2. Mechanistic Insight from Virus-Cell and Intracellular Membrane Fusogens	151
3. Mating and Sexual Reproduction	155
4. Tissue Patterning	162
5. Homeostasis and Immunity	171
6. Intercellular Communication	174
7. Disease and Therapy	177
8. A Promising Model System: Epithelial Cell Fusion in <i>C. elegans</i>	182
9. Concluding Remarks	195
Acknowledgments	195
References	196
6. New Insights into the Mechanism of Fertilization in Nematodes	211
Gunasekaran Singaravelu and Andrew Singson	
1. Introduction	212
2. Spermiogenesis	213
3. Sperm Motility	217
4. Directed Migration of Sperm to Spermatheca	222
5. Meiotic Maturation of Oocytes	225
6. Sperm-Oocyte Interaction and Fertilization	227

7. Activation of Egg and Oocyte-to-Embryo Transition	229
8. Concluding Remarks	232
Acknowledgments	233
References	233
Index	239
