Nucleic Acid-Mediated Protein Aggregation and Assembly

CHIANLIN LIU AND YONG ZHANG

I. Introduction	2
II. Nucleic Acid-Mediated Aggregation of Amyloid Proteins	3
III. Nucleic Acid Sequestration to Pathological Tissues	24
IV. Self-Assembly of Protein Nanostructures in the Presence of Nucleic Acids	26
V. Summary	32
References	34

Aggregation, Stability, and Formulation of Human Antibody Therapeutics

D. LOWE, K. DUDGEON, R. ROUET, P. SCHOFIELD, L. JERMUTUS AND D. CHRIST

I. Introduction	42
II. Expression of Human Monoclonal Antibodies and Antibody Fragments	44
III. Methods for Analyzing Solubility, Aggregation and Stability of Monoclonal Antibodies	47
IV. Addressing Aggregation and Increasing Stability of Monoclonal Antibodies	54
References	57

Lysozyme: A Model Protein for Amyloid Research

RAJARAM SWAMINATHAN, VIJAY KUMAR RAVI, SATISH KUMAR,
MATTAPARTHI VENKATA SATISH KUMAR AND NIVIDH CHANDRA

I. Introduction.....	65
II. Amyloid and Amyloidosis.....	67
III. Human Lysozyme.....	69
IV. Aggregation of <i>Hen</i> Lysozyme <i>In Vitro</i>	72
V. Recovery and Purification of Lysozyme from Inclusion Bodies.....	85
VI. Inhibition of Lysozyme Aggregation.....	94
VII. Future Perspectives.....	100
References.....	101

Protein Aggregation in a Membrane Environment

GALYNA GORBENKO AND VALERIYA TRUSOVA

I. Introduction.....	114
II. The Role of Electrostatics in Membrane-Mediated Protein Aggregation.....	115
III. Hydrophobic Effect as Driving Force for Protein Aggregation.....	120
IV. Hydrogen-Bonding as Determinant of Protein Aggregation Propensity.....	122
V. Experimental Techniques Used to Study Protein Aggregation.....	123
VI. Concluding Remarks.....	133
References.....	135

Contactins: Structural Aspects in Relation to Developmental Functions in Brain Disease

AMILA ZUKO, SAMUEL BOUYAIN, BERT VAN DER ZWAAG AND J. PETER H. BURBACH

I. Introduction.....	144
II. Genetic Implication of <i>CNTN4</i> , <i>CNTN5</i> , and <i>CNTN6</i> in Neurodevelopment.....	146

III. Expression of Contactins During Brain Development	148
IV. Phenotypes in Contactin Null-Mutants	158
V. Structural Architecture of Contactins	162
VI. Protein-Protein Interactions Mediated by Contactins	166
VII. Final Remarks	173
References	174
