ix

1. Origin and Differentiation of Ionocytes in Gill Epithelium of Teleost Fish	1
Frank P. Conte	
1. Introduction	2
2. Biology of Epithelial Cells of the Gill	3
3. Salinity Adaptation in Development of Opercular/Skin Epithelium versus Filamental Gill Epithelium	13
4. Genomic Pathways Underlying Functional Dualism in Filamental Gill IC	16
5. Concluding Remarks	18
6. Glossary of Terms	21
Acknowledgments	22
References	22
2. Cellular Mechanisms for the Biogenesis and Transport of Synaptic and Dense-Core Vesicles	27
Marjorie C. Gondré-Lewis, Joshua J. Park, Y. Peng Loh	
1. Introduction	28
2. SVs and DCVs in Neurotransmission	30
3. DCVs and SVs in Tissues	35
4. Important Cargo in DCVs Acting on Brain Function	40
5. Overview of Secretory Vesicle Biogenesis	42
6. SV Biogenesis	62
7. Golgi-to-PM Vesicle Trafficking	73
8. Vesicle Tethering and Docking for Exocytosis	82
9. Neuronal Disorders Involving SV Defects	84
10. Conclusions and Future Directions	89
Acknowledgments	90
References	90
3. Effect of Viral Infection on the Nuclear Envelope and Nuclear Pore Complex	117
Sarah Cohen, Igor Etingov, Nelly Panté	
1. Introduction	118

2. NPC and Nuclear Transport	119
3. NE Breakdown	122
4. Viruses that Cause NE Disruption	125
5. Viruses that Cause Structural and Functional Disruptions of the NPC	134
6. Concluding Remarks	149
Acknowledgments	150
References	150
4. New Insights into Cell Cycle Regulation and DNA Damage Response in Embryonic Stem Cells	161
Irina I. Suvorova, Natalia V. Katolikova, Valery A. Pospelov	
1. Introduction	162
2. Cell Cycle and Its Regulation in ESCs	163
3. DDR Signaling in ESCs	177
4. Reprogramming Somatic Cells to iPSCs and Attenuation of p53/Waf1/Ink4 Pathways	183
5. Conclusion	187
Acknowledgments	190
References	190
5. Angiogenic Effects of Erythropoietin	199
Domenico Ribatti	
1. Historical Background	200
2. Biological Properties and Production of Epo	202
3. Epo and Angiogenesis	204
4. Epo and Tumor	214
5. Therapeutic Use of Epo	218
6. Concluding Remarks	221
Acknowledgments	224
References	224
6. Radiation Responses and Resistance	235
Mara Gladstone, Tin Tin Su	
1. Introduction	236
2. Modulating the Damaging Effect of Radiation; Hypoxia	236
3. Cellular Responses to IR	237
4. PTEN and Survival Pathways	239
5. Tissue-Level Mechanisms for Radiation Resistance	240

6. Unintended Consequences	245
7. Concluding Remarks	247
Acknowledgments	249
References	249
7. Effects of Ethanol Exposure on Nervous System Development in ZebraFish	255
Gregory J. Cole, Chengjin Zhang, Princess Ojiaku, Vanessa Bell, Shailendra Devkota, Somnath Mukhopadhyay	
1. Introduction	257
2. ZebraFish as a Model System to Study Human Disease	257
3. Fetal Alcohol Spectrum Disorder	260
4. Visual System Developmental Abnormalities Associated with Ethanol Exposure in ZebraFish	268
5. Forebrain and Cerebellar Developmental Abnormalities Resulting from Ethanol Exposure in ZebraFish	275
6. Effect of Ethanol Exposure on Neurogenesis in the Developing and Adult CNS	285
7. Effect of Ethanol Exposure on Development of Motor Neurons and the Neuromuscular Junction	295
8. Summary	299
References	301
<i>Subject Index</i>	317
