Introduction

xvii

Part I

The First 50 Years (1859–1910): Laying the Foundations

1. 1859 Whose Handiwork?	3
The Standard Paradigm	3
The Conceptual Revolution	4
References and Further Reading	4
2. 1861 Spontaneous Generation	5
The Standard Paradigm	5
The Conceptual Revolution	5
Further Reading	6
3. 1865 The Nature of Heredity	7
The Standard Paradigm	7
The Conceptual Revolution	7
Reference	8
4. 1871 Pre-copulatory Sexual Selection	9
The Standard Paradigm	9
The Conceptual Revolution	9
References and Further Reading	10
5. 1875 Nature versus Nurture	11
The Standard Paradigm	11
The Conceptual Revolution	11
References and Further Reading	12

6. 1876 Biogeography	13
The Standard Paradigm	13
The Conceptual Revolution	13
References and Further Reading	14
7. 1889 Germ Plasm	15
The Standard Paradigm	15
The Conceptual Revolution	15
References and Further Reading	16
8. 1902 The Etiology of Disabilities	17
The Standard Paradigm	17
The Conceptual Revolution	17
References and Further Reading	18
9. 1902 Autosomes	19
The Standard Paradigm	19
The Conceptual Revolution	19
References and Further Reading	20
10. 1905 Epistasis	21
The Standard Paradigm	21
The Conceptual Revolution	21
References and Further Reading	22
11. 1908 Hardy-Weinberg	23
The Standard Paradigm	23
The Conceptual Revolution	23
References and Further Reading	24
12. 1909 Genotype versus Phenotype	25
The Standard Paradigm	25
The Conceptual Revolution	25
References and Further Reading	26
13. 1909 Non-Mendelian Inheritance	27
The Standard Paradigm	27
The Conceptual Revolution	27
References and Further Reading	28

14. 1910 Sex Chromosomes	29
The Standard Paradigm	29
The Conceptual Revolution	29
References and Further Reading	30

Part II

The Next 50 Years (1910–1960): Expanding the Foundations

15. 1912 Continental Drift	33
The Standard Paradigm	33
The Conceptual Revolution	33
References and Further Reading	34
16. 1915 Homeotic Genes	35
The Standard Paradigm	35
The Conceptual Revolution	35
References and Further Reading	36
17. 1927 Mutation	37
The Standard Paradigm	37
The Conceptual Revolution	37
References and Further Reading	38
18. 1930 Sex Ratio	39
The Standard Paradigm	39
The Conceptual Revolution	39
References and Further Reading	40
19. 1932 End of a Debate	41
The Standard Paradigm	41
The Conceptual Revolution	41
References and Further Reading	42
20. 1935 Biological Species	43
The Standard Paradigm	43
The Conceptual Revolution	43
References and Further Reading	44

21. 1937 Modern Synthesis	45
The Standard Paradigm	45
The Conceptual Revolution	45
References and Further Reading	46
22. 1942 Epigenetics	47
The Standard Paradigm	47
The Conceptual Revolution	47
References and Further Reading	48
23. 1944 Genetic Material	49
The Standard Paradigm	49
The Conceptual Revolution	49
References and Further Reading	50
24. 1950 Jumping Genes	51
The Standard Paradigm	51
The Conceptual Revolution	51
References and Further Reading	52
25. 1952 Pluripotency	53
The Standard Paradigm	53
The Conceptual Revolution	53
References and Further Reading	54
26. 1952 Aging	55
The Standard Paradigm	55
The Conceptual Revolution	55
References and Further Reading	56
27. 1953 Origins of Life	57
The Standard Paradigm	57
The Conceptual Revolution	57
References and Further Reading	58
28. 1954 Hybridization	59
The Standard Paradigm	59
The Conceptual Revolution	59
References and Further Reading	60

29. 1954 Life's Antiquity	61
The Standard Paradigm	61
The Conceptual Revolution	61
References and Further Reading	62
30. 1956 Evolution in Action	63
The Standard Paradigm	63
The Conceptual Revolution	63
References and Further Reading	64
Part III	
The 1960s and 1970s: Dawn of the Molecular Era	
31. 1963 Molecular Phylogeny	67
The Standard Paradigm	67
The Conceptual Revolution	67
References and Further Reading	68
32. 1964 Kin Selection	69
The Standard Paradigm	69
The Conceptual Revolution	69
References and Further Reading	70
33. 1964 Coevolution	71
The Standard Paradigm	71
The Conceptual Revolution	71
References and Further Reading	72
34. 1965 Molecular Clocks	73
The Standard Paradigm	73
The Conceptual Revolution	73
References and Further Reading	74
35. 1966 Cladistics	75
The Standard Paradigm	75
The Conceptual Revolution	75
References and Further Reading	76

36. 1966 Individual Selection	77
The Standard Paradigm	77
The Conceptual Revolution	77
References and Further Reading	78
37. 1966 Genetic Variation	79
The Standard Paradigm	79
The Conceptual Revolution	79
References and Further Reading	80
38. 1967 Organelle Origins	81
The Standard Paradigm	81
The Conceptual Revolution	81
References and Further Reading	82
39. 1968 Genomic Structure	83
The Standard Paradigm	83
The Conceptual Revolution	83
References and Further Reading	84
40. 1968 Neutrality Theory	85
The Standard Paradigm	85
The Conceptual Revolution	85
References and Further Reading	86
41. 1969 Gene Regulation	87
The Standard Paradigm	87
The Conceptual Revolution	87
References and Further Reading	88
42. 1970 The Flow of Information	89
The Standard Paradigm	89
The Conceptual Revolution	89
References and Further Reading	90
43. 1970 Post-copulatory Sexual Selection	91
The Standard Paradigm	91
The Conceptual Revolution	91
References and Further Reading	92

44. 1972 Jerky Evolution	93
The Standard Paradigm	93
The Conceptual Revolution	93
References and Further Reading	94
45. 1972 Recombinant DNA	95
The Standard Paradigm	95
The Conceptual Revolution	95
References and Further Reading	96
46. 1974 Parent–Offspring Conflict	97
The Standard Paradigm	97
The Conceptual Revolution	97
References and Further Reading	98
47. 1975 Human Genomic Uniqueness	99
The Standard Paradigm	99
The Conceptual Revolution	99
References and Further Reading	100
48. 1976 Selfish Genes	101
The Standard Paradigm	101
The Conceptual Revolution	101
References and Further Reading	102
49. 1977 Split Genes	103
The Standard Paradigm	103
The Conceptual Revolution	103
References and Further Reading	104
50. 1977 Domains of Life	105
The Standard Paradigm	105
The Conceptual Revolution	105
References and Further Reading	106
51. 1979 Phylogeography	107
The Standard Paradigm	107
The Conceptual Revolution	107
References and Further Reading	108

52. 1979 Exaptations	109
The Standard Paradigm	109
The Conceptual Revolution	109
References and Further Reading	110

53. 1979 Genetic Code	111
The Standard Paradigm	111
The Conceptual Revolution	111
References and Further Reading	112

Part IV

Post-1980: Elaborating and Revisiting the Foundations

54. 1980 Microbial Clonality	115
The Standard Paradigm	115
The Conceptual Revolution	115
References and Further Reading	116

55. 1982 Catalyzing New Thoughts	117
The Standard Paradigm	117
The Conceptual Revolution	117
References and Further Reading	118

56. 1982 Game Theory	119
The Standard Paradigm	119
The Conceptual Revolution	119
References and Further Reading	120

57. 1983 Conservation Genetics	121
The Standard Paradigm	121
The Conceptual Revolution	121
References and Further Reading	122

58. 1984 DNA Fingerprinting and Mating Systems	123
The Standard Paradigm	123
The Conceptual Revolution	123
References and Further Reading	124

59. 1987 Humans Out of Africa	125
The Standard Paradigm	125
The Conceptual Revolution	125
References and Further Reading	126
60. 1989 Fossil DNA	127
The Standard Paradigm	127
The Conceptual Revolution	127
References and Further Reading	128
61. 1991 Phylogenetic Character Mapping	129
The Standard Paradigm	129
The Conceptual Revolution	129
References and Further Reading	130
62. 1992 Evolutionary Psychology	131
The Standard Paradigm	131
The Conceptual Revolution	131
References and Further Reading	132
63. 1993 Regulatory RNAs	133
The Standard Paradigm	133
The Conceptual Revolution	133
References and Further Reading	134
64. 1994 Darwinian Medicine	135
The Standard Paradigm	135
The Conceptual Revolution	135
References and Further Reading	136
65. 1999 Lateral Transfer in the Web of Life	137
The Standard Paradigm	137
The Conceptual Revolution	137
References and Further Reading	138
66. 2001 Genomic Sequencing	139
The Standard Paradigm	139
The Conceptual Revolution	139
References and Further Reading	140

67. 2003 Barcoding Life	141
The Standard Paradigm	141
The Conceptual Revolution	141
References and Further Reading	142
68. 2003 Functional Pseudogenes	143
The Standard Paradigm	143
The Conceptual Revolution	143
References and Further Reading	144
69. 2004 Adaptive Speciation	145
The Standard Paradigm	145
The Conceptual Revolution	145
References and Further Reading	146
70. 2010 Comparative Genomics	147
The Standard Paradigm	147
The Conceptual Revolution	147
References and Further Reading	148
 Epilogue	149
Glossary	151
Index	159
