| Preface      | ix |
| Introduction | xi |

|                            |   |
|----------------------------|---|
| 1. Big Questions           | 1 |
| 2. What This Book Is About | 3 |
| 3. Scientific Acronyms     | 7 |
| 4. Molecular Graphics      | 9 |

## Section I

### The Old Testament of Gene Regulation

|                                                     |    |
|-----------------------------------------------------|----|
| 5. Evolution as a Cutout Doll Problem I             | 13 |
| 6. Evolution as a Cutout Doll Problem II            | 17 |
| 7. The Best Art                                     | 21 |
| 8. Intelligent Design                               | 23 |
| 9. Polymers                                         | 25 |
| 10. LEGO (Trademark) Life                           | 27 |
| 11. $\alpha/\beta$ Proteins                         | 33 |
| 12. The Inevitability of $\alpha/\beta$ Folds       | 45 |
| 13. Evolution Puts the Y (Why) in Biology           | 49 |
| 14. Evolution Is Not Anti-Religion                  | 51 |
| 15. Computers in Biology                            | 53 |
| 16. The Old and New Testaments of Gene Regulation   | 55 |
| 17. Evolution as a Cutout Doll Problem III          | 59 |
| 18. Multi-Subunit RNA Polymerases Book I            | 65 |
| Double- $\Psi$ - $\beta$ -Barrels (The Active Site) | 67 |
| The Bridge Helix                                    | 68 |

|                                             |                                                                                      |     |
|---------------------------------------------|--------------------------------------------------------------------------------------|-----|
|                                             | The Trigger Loop                                                                     | 68  |
|                                             | $\sigma$ Factor Binding to Promoter DNA                                              | 68  |
|                                             | Zn1 and Zn2                                                                          | 69  |
|                                             | Do Not Try This at Home                                                              | 71  |
