

Table of contents

1 Computing and molecules	1
J.M. Goodfellow, D.S. Moss, and I.J. Tickle	
2 Molecular geometry	5
D.S. Moss	
3 Analysis of molecular geometry	19
P. Murray-Rust	
4 The representation of molecular structure on a computer graphics system	55
I.J. Tickle	
5 Potential energy functions	85
S.L. Price and J.M. Goodfellow	
6 Biomolecular mechanics	101
A. Hemmings	
7 Computer simulation: techniques and applications	135
J.M. Goodfellow and D.S. Moss	
8 Image processing in electron microscopy	151
H. Saibil	
9 Enzyme kinetics	173
C.M. Topham	
10 Protein structure databases: design and applications	211
J.M. Thornton, S.P. Gardner, and E.G. Hutchinson	
11 From modelling homologous proteins to prediction of structure	231
A. Sali, J.P. Overington, M.S. Johnson and T.L. Blundell	
Index	246
