Series Foreword	vii
Foreword by Herbert A. Simon†	ix
Preface	xv
I INTRODUCTION	1
1 The Ubiquity of Modularity	3
Werner Callebaut	
II EVO-DEVO: THE MAKING OF A MODULAR WORLD	29
2 Natural Selection and the Origin of Modules	33
Günter P. Wagner, Jason Mezey, and Raffaele Calabretta	
3 Evolutionary Modules: Conceptual Analyses and Empirical Hypotheses	51
Robert N. Brandon	
4 Evolutionary Developmental Biology Meets Levels of Selection: Modular Integration or Competition, or Both?	61
Rasmus G. Winther	
5 Modularity in Evolution: Some Low-Level Questions	99
Lee Altenberg	
6 Evolutionary Lock-In and the Origin of Modularity in RNA Structure	129
Lauren Ancel Meyers and Walter Fontana	
7 Amphibian Variations: The Role of Modules in Mosaic Evolution	143
Gerhard Schlosser	
III EVO-PATTERNS: WORKING TOWARD A GRAMMAR OF FORMS	181
8 The Remodularization of the Organism	185
Daniel W. McShea and Carl Anderson	
9 Modularity: Jumping Forms within Morphospace	207
Diego Rasskin-Gutman	
10 Morphological Modularity and Macroevolution: Conceptual and Empirical Aspects	221
Gunther J. Eble	

11	Hierarchical Integration of Modular Structures in the Evolution of Animal Skeletons	239
	Roger D. K. Thomas	
12	Modularity in Art	259
	Slavik V. Jablan	
13	Modularity at the Boundary Between Art and Science	283
	Angela D. Buscalioni, Alicia de la Iglesia, Rafael Delgado-Buscalioni, and Anne Dejoan	
IV	MODULARITY OF MIND AND CULTURE	305
14	Evolutionary Connectionism and Mind/Brain Modularity	309
	Raffaele Calabretta and Domenico Parisi	
15	Modularity and Chunking	331
	Fernand Gobet	
16	Modularity of Cognitive Organization: Why It Is so Appealing and Why It Is Wrong	353
	Boris M. Velichkovsky	
17	Decomposability and Modularity of Economic Interactions	383
	Luigi Marengo, Corrado Pasquali, and Marco Valente	
18	The Natural Logic of Communicative Possibilities: Modularity and Presupposition	409
	D. Kimbrough Oller	
	Contributors	435
	Index	437
