

Contents

<i>Note to Students</i>	iv	<i>Chapter 20: Unifying Concepts of Animal Structure and Function</i>	257
<i>Acknowledgments</i>	viii	<i>Chapter 21: Nutrition and Digestion</i>	268
<i>Chapter 1: Biology: Exploring Life</i>	1	<i>Chapter 22: Gas Exchange</i>	281
<i>Chapter 2: The Chemical Basis of Life</i>	11	<i>Chapter 23: Circulation</i>	293
<i>Chapter 3: The Molecules of Cells</i>	23	<i>Chapter 24: The Immune System</i>	305
<i>Chapter 4: A Tour of the Cell</i>	38	<i>Chapter 25: Control of Body Temperature and Water Balance</i>	317
<i>Chapter 5: The Working Cell</i>	50	<i>Chapter 26: Hormones and the Endocrine System</i>	328
<i>Chapter 6: How Cells Harvest Chemical Energy</i>	61	<i>Chapter 27: Reproduction and Embryonic Development</i>	340
<i>Chapter 7: Photosynthesis: Using Light to Make Food</i>	75	<i>Chapter 28: Nervous Systems</i>	354
<i>Chapter 8: The Cellular Basis of Reproduction and Inheritance</i>	87	<i>Chapter 29: The Senses</i>	369
<i>Chapter 9: Patterns of Inheritance</i>	104	<i>Chapter 30: How Animals Move</i>	379
<i>Chapter 10: Molecular Biology of the Gene</i>	122	<i>Chapter 31: Plant Structure, Reproduction, and Development</i>	391
<i>Chapter 11: The Control of Gene Expression</i>	136	<i>Chapter 32: Plant Nutrition and Transport</i>	405
<i>Chapter 12: DNA Technology and Genomics</i>	150	<i>Chapter 33: Control Systems in Plants</i>	414
<i>Chapter 13: How Populations Evolve</i>	167	<i>Chapter 34: The Biosphere: An Introduction to Earth's Diverse Environments</i>	425
<i>Chapter 14: The Origin of Species</i>	180	<i>Chapter 35: Behavioral Adaptations to the Environment</i>	438
<i>Chapter 15: Tracing Evolutionary History</i>	189	<i>Chapter 36: Population Ecology</i>	451
<i>Chapter 16: The Origin and Evolution of Microbial Life: Prokaryotes and Protists</i>	203	<i>Chapter 37: Communities and Ecosystems</i>	465
<i>Chapter 17: Plants, Fungi, and the Colonization of Land</i>	215	<i>Chapter 38: Conservation and Restoration Biology</i>	478
<i>Chapter 18: The Evolution of Invertebrate Diversity</i>	229	<i>Answers</i>	489
<i>Chapter 19: The Evolution of Vertebrate Diversity</i>	244
