Prologue – To Select is Not to Preserve.....	xi
Part 1 Information and DNA.....	1
1. Memory – A Phenomenon of Arrangement.....	3
2. Chargaff's First Parity Rule.....	29
3. Information Levels and Barriers.....	47
Part 2 Parity and Non-Parity.....	67
4. Chargaff's Second Parity Rule.....	69
5. Stems and Loops.....	89
6. Chargaff's Cluster Rule.....	105
Part 3 Mutation and Speciation.....	121
7. Species Survival and Arrival.....	123
8. Chargaff's GC Rule.....	155
Part 4 Conflict within Genomes.....	181
9. Conflict Resolution.....	183
10. Exons and Introns.....	207
11. Complexity.....	225

Part 5 Conflict between Genomes.....	249
12. Self/Not-Self?.....	250
13. The Crowded Cytosol.....	273
Part 6 Sex and Error-Correction.....	291
14. Rebooting the Genome.....	293
15. The Fifth Letter.....	315
Epilogue To Perceive is Not To Select.....	325
Appendix 1 What the Graph Says.....	337
Appendix 2 Scoring Information Potential.....	343
Appendix 3 No Line?.....	347
Acknowledgements.....	357
References and Notes.....	361
Index.....	393
