Preface.....	xi
Editor	xiii
About the Book.....	xv
Contributors	xvii

PART I The Sources and Production of Chitin and Chitosan Derivatives

Chapter 1 Chitin and Chitosan from Terrestrial Organisms.....	3
<i>Nitar Nwe, Tetsuya Furuike, and Hiroshi Tamura</i>	
Chapter 2 Chitin and Chitosan from Marine Organisms	11
<i>Wolfram M. Brück, John W. Slater, and Brian F. Carney</i>	
Chapter 3 Chitin and Chitosan from Microorganisms	25
<i>Zorica Knezevic-Jugovic, Zivomir Petronijevic, and Andrija Smelcerovic</i>	
Chapter 4 Enzymatic Production of Chitin from Crustacean Shell Waste.....	37
<i>Gyung-Hyun Jo, Ro-Dong Park, and Woo-Jin Jung</i>	
Chapter 5 Continuous Production of Chitooligosaccharides by Enzymatic Hydrolysis.....	47
<i>Se-Kwon Kim and Jae-Young Je</i>	
Chapter 6 Biosynthesis of Cellulose–Chitosan Composite	53
<i>Muenduen Phisalaphong, Nirun Jatupaiboon, and Jeerun Kingkaew</i>	

PART II Physical and Chemical Aspects of Chitin and Chitosan Derivatives

Chapter 7 Chemical Derivatization of Chitosan for Plasmid DNA Delivery: Present and Future.....	69
<i>Wing-Fu Lai and Marie Chin-Mi Lin</i>	
Chapter 8 X-Ray Diffraction Studies of Chitin, Chitosan, and Their Derivatives	83
<i>Waldemar Maniukiewicz</i>	

Chapter 9	Mechanical Properties of Chitosan and Chitosan–Poly(Vinyl Alcohol) Blend Films	95
	<i>Masaru Matsuo, Yumiko Nakano, Teruo Nakashima, and Yuezhen Bin</i>	
Chapter 10	Electrostatic Properties of Chitosan.....	117
	<i>Won Jong Kim</i>	
Chapter 11	Applications of Mass Spectrometry to Analyze Structure and Bioactivity of Chitooligosaccharides.....	127
	<i>Martin G. Peter and Marcos N. Eberlin</i>	
Chapter 12	The Use of Various Types of NMR and IR Spectroscopy for Structural Characterization of Chitin and Chitosan.....	149
	<i>Mohammad Reza Kasaai</i>	
 PART III Structural Modifications of Chitin and Chitosan Derivatives		
Chapter 13	Chemical Modifications of Chitosan Intended for Biomedical Applications	173
	<i>Mani Prabakaran and Ashutosh Tiwari</i>	
Chapter 14	Enzymatic Modifications of Chitin and Chitosan.....	185
	<i>Yong Zhao, Wan-Taek Ju, and Ro-Dong Park</i>	
 PART IV Biological Activities of Chitin and Chitosan Derivatives		
Chapter 15	Antimicrobial Activity of Chitin, Chitosan, and Their Oligosaccharides	195
	<i>Joydeep Dutta and Pradip Kumar Dutta</i>	
Chapter 16	Anti-Inflammatory Activity of Chitin, Chitosan, and Their Derivatives	215
	<i>Moon-Moo Kim and Se-Kwon Kim</i>	
Chapter 17	Chitosan Scaffolds for Bone Regeneration	223
	<i>Riccardo A. A. Muzzarelli</i>	
Chapter 18	Antioxidative Activity of Chitosan, Chitooligosaccharides and Their Derivatives.....	241
	<i>Pyo-Jam Park, Sushruta Koppula, and Se-Kwon Kim</i>	
Chapter 19	Effects of Chitin, Chitosan, and Their Derivatives on Human Hemostasis.....	251
	<i>Se-Kwon Kim and Won-Kyo Jung</i>	

Chapter 20	Antihypertensive Actions of Chitosan and Its Derivatives	263
	<i>Jae-Young Je and Chang-Bum Ahn</i>	
Chapter 21	Anticancer Activity and Therapeutic Applications of Chitosan Nanoparticles	271
	<i>Hang T. Ta, Dave E. Dunstan, and Crispin R. Dass</i>	
Chapter 22	Antidiabetic Activity and Cholesterol-Lowering Effect of Chitin, Chitosan, and Their Derivatives	285
	<i>Chang-Suk Kong and Se-Kwon Kim</i>	
 PART V <i>Biomedical Applications of Chitin and Chitosan Derivatives</i>		
Chapter 23	Chitin/Chitosan Oligosaccharides: Effective Substrates for Functional Analysis of Chitinases/Chitosanases	295
	<i>Takayuki Ohnuma and Tamo Fukamizo</i>	
Chapter 24	Low Molecular Weight Water Soluble Chitosan with Free Amine Group for Drug Delivery	325
	<i>Mi-Kyeong Jang and Jae-Woon Nah</i>	
Chapter 25	Chitosan/Chitosan Derivatives as Carriers and Immunoadjuvants in Vaccine Delivery	339
	<i>Suresh P. Vyas, Rishi Paliwal, and Shivani R. Paliwal</i>	
Chapter 26	Chitosan-Conjugated DNA Nanoparticle Delivery Systems for Gene Therapy	357
	<i>R. Jayakumar, K. P. Chennazhi, S. V. Nair, Tetsuya Furuike, and Hiroshi Tamura</i>	
Chapter 27	Chitinolytic Enzymes from the Moderately Thermophilic Bacterium <i>Ralstonia</i> sp. A-471: Characterization and Application	371
	<i>Mitsuhiro Ueda</i>	
Chapter 28	Chitosan and Chitosan Derivatives as DNA and siRNA Carriers	377
	<i>Hu-Lin Jiang, Yun-Jaie Choi, Myung-Haing Cho, and Chong-Su Cho</i>	
Chapter 29	Metabolic Pathway of Chitin and Its Oligosaccharides in Marine Bacterium <i>Vibrios</i>	391
	<i>Jae Kweon Park</i>	
Chapter 30	Medical Applications of Chitin and Chitosan: Going Forward	405
	<i>Eugene Khor</i>	

Chapter 31	Radiation Functionalization and Applications of Chitosan and Its Derivatives	415
	<i>Maolin Zhai, Long Zhao, Ling Huang, Ling Xu, Liyong Yuan, and Min Wang</i>	
Chapter 32	Applications of Chitosan Oligosaccharide and Glucosamine in Dentistry.....	447
	<i>Yoshihiko Hayashi</i>	
Chapter 33	Applications of Chitosan and Its Derivatives in Veterinary Medicine	461
	<i>Sevda Şenel</i>	

PART VI Industrial Applications of Chitin and Chitosan Derivatives

Chapter 34	Separation Membranes from Chitin and Chitosan Derivatives	481
	<i>Tadashi Uragami</i>	
Chapter 35	Hydrophobically Modified Acylated Chitosan Particles for Drug Delivery Applications: An Overview	507
	<i>R. Shelma and Chandra P. Sharma</i>	
Chapter 36	Chitin, Chitosan, and Their Derivatives in Beverage Industry	519
	<i>Aur�lie Bornet and Pierre-Louis Teissedre</i>	
Chapter 37	Chitin Nanofibrils and Their Derivatives as Cosmeceuticals	531
	<i>P. Morganti</i>	
Chapter 38	Chitin, Chitosan, and Their Oligosaccharides in Food Industry	543
	<i>Janak K. Vidanarachchi, Maheshika S. Kurukulasuriya, and Se-Kwon Kim</i>	
Chapter 39	Chitin/Chitosan and Derivatives for Wastewater Treatment.....	561
	<i>P. N. Sudha</i>	

PART VII Agricultural and Biotechnology Applications of Chitin and Chitosan and Their Derivatives

Chapter 40	Chitin, Chitosan Derivatives Induce the Production of Secondary Metabolites and Plant Development through <i>In Vitro</i> and <i>In Vivo</i> Techniques	589
	<i>Abdul Bakrudeen Ali Ahmed and Se-Kwon Kim</i>	

Chapter 41 Mechanism and Application of Chitin/Chitosan and Their Derivatives in Plant Protection..... 605
Heng Yin and Yuguang Du

Chapter 42 Enhancing Crop Production with Chitosan and Its Derivatives 619
Nguyen Anh Dzung

Index..... 633

I am grateful to all the colleagues in the field of chitin/chitosan and their past history to this field. I also thank my continual support, which was a fundamental idea presented in the benefit of humankind.

Yoon-Gook Kim
