

Contents

Preface.....	v
List of contributors	vii
<i>Chapter 1. Functional roles of lipids in membranes</i> <i>William Dowhan, Mikhail Bogdanov, and Eugenia Mileykovskaya.....</i>	<i>1</i>
<i>Chapter 2. Lipid modifications of proteins</i> <i>Anant K. Menon.....</i>	<i>39</i>
<i>Chapter 3. Fatty acid and phospholipid metabolism in prokaryotes</i> <i>Charles O. Rock.....</i>	<i>59</i>
<i>Chapter 4. Lipid metabolism in plants</i> <i>Katherine M. Schmid and John B. Ohlrogge.....</i>	<i>97</i>
<i>Chapter 5. Oxidation of fatty acids in eukaryotes</i> <i>Horst Schulz.....</i>	<i>131</i>
<i>Chapter 6. Fatty acid synthesis in eukaryotes</i> <i>Hei Sook Sul and Stuart Smith</i>	<i>155</i>
<i>Chapter 7. Fatty acid desaturation and chain elongation in mammals</i> <i>Makoto Miyazaki and James M. Ntambi</i>	<i>191</i>
<i>Chapter 8. Phospholipid biosynthesis in eukaryotes</i> <i>Dennis E. Vance and Jean E. Vance</i>	<i>213</i>
<i>Chapter 9. Ether-linked lipids and their bioactive species</i> <i>Thomas M. McIntyre, Fred Snyder, and Gopal K. Marathe.....</i>	<i>245</i>
<i>Chapter 10. Lipid metabolism in adipose tissue</i> <i>Ann V. Hertzal, Brian R. Thompson, Brian M. Wiczer,</i> <i>and David A. Bernlohr.....</i>	<i>277</i>
<i>Chapter 11. Phospholipases</i> <i>David C. Wilton.....</i>	<i>305</i>
