

Brief contents

Preface xxiii

Part I Origins

- 1 **Plant life: a primer** 3
- 2 **Molecules, metabolism and energy** 42
- 3 **Genome organization and expression** 74
- 4 **Cell architecture** 114

Part II Germination

- 5 **Membrane transport and intracellular protein trafficking** 149
- 6 **Seed to seedling: germination and mobilization of food reserves** 181
- 7 **Metabolism of reserves: respiration and gluconeogenesis** 218

Part III Emergence

- 8 **Light perception and transduction** 251
- 9 **Photosynthesis and photorespiration** 284

Part IV Growth

- 10 **Hormones and other signals** 329
- 11 **The cell cycle and meristems** 371
- 12 **Growth and development** 405

Part V Maturation

- 13 Mineral nutrient acquisition and assimilation 455
- 14 Intercellular and long-distance transport 504
- 15 Environmental interactions 534

Part VI Renewal

- 16 Flowering and sexual reproduction 585
- 17 Development and dormancy of resting structures 629
- 18 Senescence, ripening and cell death 664

Acknowledgments, credits and sources 707

Index 713

Companion website

This book is accompanied by a companion website:

www.wiley.com/go/jones/molecularlifeofplants

The website includes:

- Powerpoints of all figures
- PDFs of all tables from the book for downloading
- PDFs of the table of contents and index
