<i>List of authors</i>	x
<i>Preface</i>	xiii
F. Fournier & A. Szollosi-Nagy	
I INTRODUCTION	1
1. The groundwater/surface water ecotone perspective : state of the art	3
J. Gibert, F. Fournier & J. Mathieu <i>Editors</i>	
II FUNCTION OF GROUNDWATER / SURFACE WATER INTERFACES	9
2. Ecotonal animal assemblages ; their interest for groundwater studies	11
D.L. Danielopol, R. Rouch, P. Pospisil, P. Torreiter & F. Möszlacher	
3. Stochasticity in resource utilization by a larval chironomidae (diptera) community in the bed sediments of a gravel stream	21
P.E. Schmid	
4. Temporal and spatial dynamics of meiofaunal assemblages in the hyporheic interstitial of a gravel stream	29
J.M. Schmid-Araya	
5. Interstitial fauna along an epigeal-hypogean gradient in a Rocky Mountain river	37
J.V. Ward & N.J. Voelz	
6. Filter effect of karstic spring ecotones on the population structure of the hypogean amphipod <i>Niphargus virei</i>	42
F. Malard, M.J. Turquin & G. Magniez	
7. Community respiration in the hyporheic zone of a riffle-pool sequence	51
M. Pusch	
8. Diversity, connectivity and variability of littoral, surface water ecotones in three side arms of the Szigetköz region (Danube, Hungary)	57
A. Bothar & B. Rath	

9.	Seasonal dynamics and storage of particulate organic matter within bed sediment of three streams with contrasted riparian vegetation and morphology L. Maridet, M. Philippe, J.-G. Wasson & J. Mathieu	68
10.	Bedsediments : Protein and POM content (RITRODAT-Lunz study area, Austria) M. Leichtfried	75
11.	Dynamics and vertical distribution of particulate organic matter in river bed sediments (Morava River, Czech Republic) M. Rulik	82
12.	Surface water/groundwater/forest alluvial ecosystems : functioning of interfaces. The case of the Rhine floodplain in Alsace (France) M. Trémoières, R. Carbiener, I. Eglin, F. Robach, U. Roeck & J.-M. Sanchez-Perez	91
13.	Modelling of hydrological processes in a floodplain wetland C. Bradley & A.G. Brown	102
14.	Contribution to the groundwater hydrology of the Amboseli ecosystem, Kenya A.M.J. Meijerink & W. van. Wijngaarden	111
15.	The role of hydrology in defining a groundwater ecosystem J. E. Dreher, P. Pospisil & D.L. Danielopol	119
16.	Typology of water transport and chemical reactions in groundwater / lake ecotones O. Fränze & W. Kluge	127
17.	Development of a water transfer equation for a groundwater/surface water interface and use of it to forecast floods in the Yanghe Reservoir Basin S. Liu	135
18.	Uses and limitations of ground penetrating RADAR in two riparian systems G.C. Poole, R.J. Naiman, J. Pastor & J. A. Stanford	140
III.	<i>MALFUNCTION OF GROUNDWATER / SURFACE WATER INTERFACES : CAUSES AND METHODS OF EVALUATION</i>	149
19.	Heterogeneity of groundwater-surface water ecotones V. Vanek	151
20.	Failure of agricultural riparian buffers to protect surface waters from groundwater nitrate contamination D.L. Correll, T.E. Jordan & D.E. Weller	162
21.	Stable nitrogen isotope tracing of trophic relations in food webs of river and hyporheic habitats R.C. Wissmar, J.A. Stanford & B.K. Ellis	166
22.	La zone hypodermique du sol écotone entre eaux météoriques et eaux souterraines dans l'infiltration des pesticides dissous C. Thirriot & B. Caussade	172

23.	Soils of the north-eastern coast of the Caspian Sea as the zone of sea water/groundwater interaction T.A. Glushko	178
IV.	MANAGEMENT AND RESTORATION OF GROUNDWATER / SURFACE WATER INTERFACES	183
24.	Ecotones and problems of their management in irrigation regions V.S. Zaletaev	185
25.	Hydrochemistry and ecohydrology of the transition area of the Netherlands Delta and the Brabantse Wal T.W. Hobma	194
26.	Cautious reforestation of a wetland after clearfelling G. Jacks, A.-C. Norrström, A. Joelsson & U. Johansson	204
27.	Responses of riparian ecosystems to dewatering of the Aral Sea in the vicinity of the Tedgen and Murgab rivers T.V. Dikariova	208
28.	Water regime management of desertificated ecotone systems in the Amudarya delta (Aral Sea basin) N.M. Novikova & I.N. Zabolotsky	212
V.	CONCLUSION	219
29.	Problems and challenges in groundwater/surface water ecotone analysis J. Gibert & F. Fournier	221
	ANNEX	225
	Round Table 1 : Riparian vegetation and water quality improvement M. Trémolières, D. Correll & J. Olah	227
	Round Table 2 : Biodiversity in groundwater/surface water ecotones : central questions P. Marmonier, J.V. Ward & D.L. Danielopol	231
	Round Table 3 : Modelling of flows at the interface V. Vanek, C. Thirriot, A.M.J. Meijerink & G. Jacks	236
	Round Table 4 : Contribution of the groundwater/surface water ecotone concept to our knowledge of river ecosystem functioning Ph. Vervier, M. H. Valett, C.C. Hakenkamp & M.-J. Dole-Olivier	238
	Round Table 5 : Groundwater/surface water interface and effective resource management J. Simons & J. Notenboom	243
