<i>List of contributors</i>	ix
<i>Preface</i>	xi
<i>Abbreviations</i>	xiii

Part I General principles 1

- 1 Introduction: why we need oxygen
GÖRAN E. NILSSON 3
- 2 Sensing oxygen
MIKKO NIKINMAA 14
- 3 Oxygen uptake and transport in water breathers
STEVE F. PERRY AND KATHLEEN M. GILMOUR 49
- 4 Oxygen uptake and transport in air breathers
NINI SKOVGAARD, JAMES W. HICKS, AND TOBIAS WANG 95

Part II Special cases 129

- 5 Adaptations to hypoxia in fishes
GÖRAN E. NILSSON AND DAVID J. RANDALL 131
- 6 Breathing air in water and in air: the air-breathing fishes
JEFFREY B. GRAHAM AND NICHOLAS C. WEGNER 174
- 7 Air breathers under water: diving mammals and birds
LARS P. FOLKOW AND ARNOLDUS SCHYTTE BLIX 222

- 8 Vertebrate life at high altitude
FRANK L. POWELL AND SUSAN R. HOPKINS 265
- 9 Surviving without any oxygen
GÖRAN E. NILSSON 300

Index 329
