Contributors	page ix
Preface	xiii
SECTION 1 MOLECULAR CHAPERONES AND THE CELL STRESS RESPONSE	
1 Chaperone Function: The Orthodox View R. J. Ellis	3
2 Intracellular Disposition of Mitochondrial Molecular Chaperones: Hsp60, mHsp70, Cpn10 and TRAP-1 R. S. Gupta, T. Bowes, S. Sadacharan, and B. Singh	22
SECTION 2 CHANGING PARADIGMS OF PROTEIN TRAFFICKING AND PROTEIN FUNCTION	
3 Novel Pathways of Protein Secretion G. Chimini and A. Rubartelli	45
4 Moonlighting Proteins: Proteins with Multiple Functions C. J. Jeffery	61
5 Molecular Chaperones: The Unorthodox View B. Henderson and A. Shamaei-Tousi	78
SECTION 3 EXTRACELLULAR BIOLOGY OF MOLECULAR CHAPERONES: MOLECULAR CHAPERONES AS CELL REGULATORS	
6 Cell-Cell Signalling Properties of Chaperonins A. R. M. Coates and P. Tormay	99

7	Toll-Like Receptor-Dependent Activation of Antigen Presenting Cells by Hsp60, gp96 and Hsp70	113
	R. M. Vabulas and H. Wagner	
8	Regulation of Signal Transduction by Intracellular and Extracellular Hsp70	133
	A. Asea and S. K. Calderwood	
9	Hsp72 and Cell Signalling	144
	V. L. Gabai and M. Y. Sherman	
10	Heat Shock Proteins, Their Cell Surface Receptors and Effect on the Immune System	160
	T. Lehner, Y. Wang, T. Whittall, and L. A. Bergmeier	
11	Molecular Chaperone-Cytokine Interactions at the Transcriptional Level	179
	A. Stephanou and D. S. Latchman	
 SECTION 4 EXTRACELLULAR BIOLOGY OF MOLECULAR CHAPERONES: PHYSIOLOGICAL AND PATHOPHYSIOLOGICAL SIGNALS		
12	Heat Shock Protein Release and Naturally Occurring Exogenous Heat Shock Proteins	195
	J. Frostegård and A. G. Pockley	
13	Hsp27 as an Anti-inflammatory Protein	220
	K. Laudanski, A. K. De, and C. L. Miller-Graziano	
14	BiP, a Negative Regulator Involved in Rheumatoid Arthritis	234
	V. M. Corrigan and G. S. Panayi	
 SECTION 5 EXTRACELLULAR BIOLOGY OF MOLECULAR CHAPERONES: MOLECULAR CHAPERONES AS THERAPEUTICS		
15	Neuroendocrine Aspects of the Molecular Chaperones ADNF and ADNP	251
	I. Gozes, I. Vulih, I. Spivak-Pohis, and S. Furman	
16	Heat Shock Proteins Regulate Inflammation by Both Molecular and Network Cross-Reactivity	263
	F. J. Quintana and I. R. Cohen	
17	Heat Shock Protein Fusions: A Platform for the Induction of Antigen-Specific Immunity	288
	L. Mizzen and J. Neeffe	

18 Molecular Chaperones as Inducers of Tumour Immunity	300
P. P. Banerjee and Z. Li	

SECTION 6 EXTRACELLULAR BIOLOGY OF MOLECULAR
CHAPERONES: WHAT DOES THE FUTURE HOLD?

19 Gazing into the Crystal Ball: The Unfolding Future of Molecular Chaperones	321
L. E. Hightower	

Index	327
