

Contents

<i>Contributors</i>	page ix
<i>Preface</i>	xiii
Part I. Types of Imaging Reporter Genes	
1. Fluorescent Reporter Proteins <i>Robert E. Campbell and Michael W. Davidson</i>	3
2. Revealing Biomolecular Mechanisms Through <i>In Vivo</i> Bioluminescence Imaging <i>Timothy C. Doyle, Qian Wang, and Christopher H. Contag</i>	41
3. Reporter Gene Imaging with PET/SPECT <i>June-Key Chung, Joo Hyun Kang, and Keon Wook Kang</i>	70
4. Noninvasive Imaging of Gene Expression with Magnetic Resonance Imaging and Magnetic Resonance Spectroscopy <i>Mark D. Pagel and James P. Basilion</i>	88
Part II. Enhancing Reporter Gene Imaging Techniques	
5. Multimodality Imaging of Reporter Genes <i>Pritha Ray and Sanjiv Sam Gambhir</i>	113
6. Cell-Specific Imaging of Reporter Gene Expression Using a Two-Step Transcriptional Amplification Strategy <i>Marxa L. Figueiredo, Sanjiv Sam Gambhir, Michael Carey, and Lily Wu</i>	127
Part III. Imaging Instrumentations	
7. Physics, Instrumentation, and Methods for Imaging Reporter Gene Expression in Living Subjects <i>Craig S. Levin</i>	151
Part IV. Current Applications of Imaging Reporter Genes	
8. Reporter Gene Imaging of Cell Signal Transduction <i>Tarik F. Massoud, Ramasamy Paulmurugan, Carmel Chan, Hua Fan-Minogue, and Sanjiv Sam Gambhir</i>	195
9. Gene Therapy and Imaging of Transgene Expression in Living Subjects <i>Shahriar S. Yaghoubi and Sanjiv Sam Gambhir</i>	227

10. Imaging Regulation of Endogenous Gene Expression in Living Subjects <i>Vladimir Ponomarev</i>	239
11. Imaging Cell Trafficking and Immune Cell Activation Using PET Reporter Genes <i>Evan D. Nair-Gill, Chengyi J. Shu, Isabel J. Hildebrandt, Dean O. Campbell, Owen N. Witte, and Caius G. Radu</i>	258
12. Imaging of Reporter Genes and Stem Cells <i>Martin G. Rodriguez-Porcel and Sanjiv Sam Gambhir</i>	275
13. Clinical Applications of Reporter Gene Technology <i>Iván Peñuelas, Shahriar S. Yaghoubi, Felipe Prósper, and Sanjiv Sam Gambhir</i>	297
<i>Index</i>	315
