

CONTENTS

Preface		vii
Chapter 1	Effect of Gene Polymorphism on Lipoprotein Metabolism and its Relation to CAD – A Review <i>Bhawna Singh, Alpana Saxena and Sarika Arora</i>	1
Chapter 2	Apolipoproteins A-I and B in Risk Evaluation for Coronary Heart Disease <i>Lucia Agoston-Coldea, Teodora Mocan and Lucian Mocan</i>	39
Chapter 3	Non-Genetic Factors Modify the Quantitative Genetic Trait Lipoprotein (a) and Affect its Pathogenicity <i>Guglielmina Chimienti, Anna Mezzapesa, and Gabriella Pepe</i>	63
Chapter 4	Aldehyde-Dependent Modification of Low Density Lipoproteins <i>V. Z.Lankin, A. K.Tikhaze, G. G.Konovalova, E. M.Kumskova and K. B.Shumaev</i>	85
Chapter 5	Lipoprotein-X in Diseases <i>Anna Boyajyan, Arsen Arakelyan and Violeta Ayvazyan</i>	109
Chapter 6	The Role of Lipoproteins in Stages of Women Life <i>Recep Yildizhan, Begum Pekin Yildizhan, Gokce Anik and Gozde Yildizhan</i>	125
Chapter 7	Novel Mouse Models for Dissecting the Plasma Lipoprotein Cholesterol Homeostasis by N-Ethyl-N-Nitrosourea Mutagenesis <i>Bernhard Aigner, Birgit Rathkolb and Eckhard Wolf</i>	139
Chapter 8	Lipoprotein and Cytokine Profile Peculiarities as Informative Biomarkers of Dyslipidemias and Atherosclerosis <i>Alexander D. Dergunov</i>	155

Chapter 9	LDL Receptors and Cholesterol Homeostasis in Cultured Arterial Smooth Muscle Cells Isolated from Chick Upon Cholesterol Feeding	171
	<i>Ana Linares, Sonia Perales, Carolina Torres, José Iglesias, Rogelio Palomino-Morales, Abdelaaziz Louktibi and M^o José Alejandro</i>	
Chapter 10	Homocysteinylation of Low-Density Lipoproteins (LDL) from Subjects with Type 1 Diabetes and Human Aortic Endothelial Cells: An In Vitro Study	183
	<i>Arianna Vignini, Laura Nanetti, Francesca Raffaelli, Tiziana Bacchetti, Gianna Ferretti, Rosa Anna Rabini, Eleonora Salvolini and Laura Mazzanti</i>	
Chapter 11	A Case Study of Intact Vitellogenin Isolated from the Plasma of Wild Silver Japanese Eel (<i>Anguilla Japonica</i>)	195
	<i>Masaharu Komatsu, Seiichi Ando, Seiichi Hayashi, Tatsuhiko Furukawa, Shota Takumi Kohji Aoyama and Toru Takeuchi</i>	
Chapter 12	Apolipoprotein B100: A Highly Dynamic Structure	207
	<i>Ruth Prassl</i>	
Chapter 13	Outer Membrane Lipoprotein of <i>Escherichia Coli</i> And Protein Overproduction and Secretion	217
	<i>Alla O. Badyakina</i>	
Chapter 14	The Role of Lipoprotein Abnormalities as Risk Factors for Macroangiopathy in Type 2 Diabetes	227
	<i>Annunziata Lapolla and Giovanni Sartore</i>	
Index		233
