
Contents

Chapter 1	The NF- κ B Pathway: A Paradigm for Inducible Gene Expression	1
<i>Sankar Ghosh</i>		
Chapter 2	Structural Aspects of NF- κ B and I κ B Proteins	9
<i>Anu K. Moorthy, Tom Huxford, and Gourisankar Ghosh</i>		
Chapter 3	Regulation of IKK	25
<i>Hans Häcker and Michael Karin</i>		
Chapter 4	Control of NF- κ B Activity by Ubiquitination.....	53
<i>Steven C. Ley and Yinon Ben-Neriah</i>		
Chapter 5	Regulation of Nuclear NF- κ B Action: A Key Role for Posttranslational Modification	87
<i>Lin-Feng Chen and Warner C. Greene</i>		
Chapter 6	NF- κ B in the Innate Immune System	107
<i>Matthew S. Hayden and Sankar Ghosh</i>		
Chapter 7	NF- κ B in the Adaptive Immune System: Lymphocyte Survival and Function	131
<i>Matthew S. Hayden and Sankar Ghosh</i>		
Chapter 8	NF- κ B and IKK as Key Mediators of Inflammation and Oncogenic Progression	159
<i>Albert S. Baldwin</i>		
Chapter 9	NF- κ B and Associated Human Genetic Pathologies	183
<i>Alain Israël</i>		

Chapter 10 Regulating the Master Regulator NF- κ B: From Natural Strategies to Rationally Designed Superdrugs	195
---	-----

Sebo Withoff, Vinay Tergaonkar, and Inder M. Verma
