

TABLE OF CONTENTS

Chapter 1	
Overview of Signal Transduction in Leukocytes	1
Pramod M. Lad, John S. Kaptein, and Ching-Kow E. Lin	
Chapter 2	
Signal Transduction from Cytokine Receptors	5
Hilary P. Benton and Alison M. O'Mahony	
Chapter 3	
Structure and Function of Receptor-Associated G Proteins	37
John S. Kaptein, Ching-Kow E. Lin, Catherine L. Wang, and Pramod M. Lad	
Chapter 4	
Role of Small GTP-Binding Proteins in Leukocyte Signal Transduction	75
Mark T. Quinn	
Chapter 5	
Emerging Paradigms of Protein Phosphorylation in Mitogenic Signal Transduction	143
Natarajan Venkatesan and Frederick L. Hall	
Chapter 6	
Regulation of Src Family PTKs During T Cell Activation	173
Clément Couture and Tomas Mustelin	
Chapter 7	
The B Cell Antigen Receptor and its Role in B Lymphocyte Regulation	209
Ching-Kow E. Lin, John S. Kaptein, Tam Thuan Nguyen, and Pramod M. Lad	
Chapter 8	
Signal Transduction in the Human Neutrophil	253
Melissa Durstin and Ramadan I. Sha'afi	
Chapter 9	
Eosinophils: Receptors and Signal Transduction	287
Hirohito Kita	

Chapter 10	
Intracellular Signaling Pathways Regulating Inflammatory Gene	
Expression in Mononuclear Phagocytes	325
Thomas A. Hamilton and Yoshihiro Ohmori	
Appendix	345
Ching-Kow E. Lin, John S. Kaptein, and Pramod M. Lad	
List of Abbreviations	359
Index	365
