Series Preface.....	xi
Preface.....	xiii
Editors.....	xv
Contributors	xvii

Part I Enzyme Systems Involved in Lipid-Mediated Signaling

Chapter 1	Methods for Measuring the Activity and Expression of Phospholipases A ₂	3
	<i>Prerna Rastogi, Janhavi Sharma, and Jane McHowat</i>	
Chapter 2	Methods of Measuring the Activity and Expression of Phospholipases C.....	27
	<i>Ryan A. Frieler, John A. Watt, and Thad A. Rosenberger</i>	
Chapter 3	Methods for Measuring the Activity and Expression of Phospholipase D.....	55
	<i>Wenjuan Su and Michael A. Frohman</i>	
Chapter 4	Methods for Measuring the Activity and Expression of Diacylglycerol Kinase	77
	<i>Kaoru Goto, Yasukazu Hozumi, Tomoyuki Nakano, Alberto M. Martelli, and Hisatake Kondo</i>	
Chapter 5	Methods for Measuring Endocannabinoid Production and Expression and Activity of Enzymes Involved in the Endocannabinoid System	109
	<i>Tiziana Bisogno, Luciano De Petrocellis, and Vincenzo Di Marzo</i>	

Part II Mass Spectrometry Methods for Lipid Analysis

- Chapter 6** Mass Spectrometry Methods for the Analysis of Lipid Molecular Species: A Shotgun Lipidomics Approach..... 151
Xianlin Han, Hua Cheng, Xuntian Jiang, and Youchun Zeng
- Chapter 7** Mass Spectrometry Methods for the Analysis of Bioactive Sphingolipids: A High-Performance Liquid Chromatography/Tandem Mass Spectrometry Approach..... 177
Jacek Bielawski, Motohiro Tani, and Yusuf A. Hannun
- Chapter 8** Mass Spectrometry Methods for the Analysis of Oxidant Stress in Biological Fluids and Tissues: Quantification of F₂-Isoprostanes and F₄-Neuroprostanes Using Mass Spectrometry 199
Ginger L. Milne and Jason D. Morrow

Part III Lipid-Mediated Regulation of Gene Expression

- Chapter 9** Methods for Assessing the Role of Lipid-Activated Nuclear Receptors in the Regulation of Gene Transcription..... 215
Jenny Kaeding, Jocelyn Trottier, and Olivier Barbier
- Chapter 10** Fluorescence Methods to Assess the Impact of Lipid Binding Proteins on Ligand-Mediated Activation of Gene Expression..... 299
Heather A. Hostetler, Avery L. McIntosh, Anca D. Petrescu, Huan Huang, Barbara P. Atshaves, Eric J. Murphy, Ann B. Kier, and Friedhelm Schroeder

Part IV *Methods to Assess Fatty Acid and Phospholipid Metabolism*

Chapter 11	Methods for Measuring Fatty Acids Using Chromatographic Techniques	351
	<i>Gwendolyn Barceló-Coblijn, Cameron C. Murphy, and Eric J. Murphy</i>	
Chapter 12	Methods for Measuring Fatty Acid Uptake and Targeting in Cultured Cells and <i>in Vivo</i>	373
	<i>Paul G. Millner, Serena M. Lackman, and Eric J. Murphy</i>	
Chapter 13	Methods for Kinetic Analysis of Fatty Acid Incorporation and Turnover <i>in Vivo</i> : A Steady-State Kinetic Radiotracer Approach	395
	<i>Dhaval P. Bhatt and Thad A. Rosenberger</i>	
Index		415
