

Contents in Brief

- CHAPTER 1** An Introduction to Animal Behavior 3
- CHAPTER 2** Behavioral Ecology and the Evolution of Altruism 15
- CHAPTER 3** The Evolution of Social Behavior 43
- CHAPTER 4** The Evolution of Communication 67
- CHAPTER 5** Avoiding Predators and Finding Food 101
- CHAPTER 6** The Evolution of Habitat Selection, Territoriality, and Migration 139
- CHAPTER 7** The Evolution of Reproductive Behavior 171
- CHAPTER 8** The Evolution of Mating Systems 217
- CHAPTER 9** The Evolution of Parental Care 257
- CHAPTER 10** Proximate and Ultimate Causes of Behavior 293
- CHAPTER 11** The Development of Behavior 323
- CHAPTER 12** Evolution, Nervous Systems, and Behavior 359
- CHAPTER 13** How Neurons and Hormones Organize Behavior 391
- CHAPTER 14** The Evolution of Human Behavior 423

Contents

CHAPTER 1

An Introduction to Animal Behavior 3

The Behavioral Ecology of a Digger Bee 4

Natural Selection and Infanticide 9

The Science of Behavioral Biology 11

The Power of Scientific Logic 11

Summary 13

Suggested Reading 13

CHAPTER 2

Behavioral Ecology and the Evolution of Altruism 15

Explaining Altruism: Intelligent Design? 17

Altruism and For-the-Benefit-of-the-Group Selection 18

Altruism and Indirect Selection 21

Kin Selection and Inclusive Fitness Theory 23

Social Insects and Inclusive Fitness 25

Testing the Haplodiploidy Hypothesis 28

The History of Behavioral Traits 29

The Origin of the Dances of Honey Bees 32

An Initial Hypothesis and Its Test 34

Kin Selection and Social Conflict 37

Summary 41

Suggested Reading 41

CHAPTER 3

The Evolution of Social Behavior 43

The Evolution of Helpful Behavior 45

The Reciprocity Hypothesis 50

Kin Selection and Helpful Behavior 53

Helpers at the Nest: A Darwinian Puzzle 54

Helpers at the Nest: Alternative Hypotheses 56

Helpers at the Burrow: The Case of the Naked Mole Rat 61

Altruism in Vertebrates and Insects: A Comparison 62

Summary 65

Suggested Reading 65

CHAPTER 4

The Evolution of Communication 67

The History of a Strange Display 68

Evolutionary History Occurs via Changes in
Preexisting Traits 69

Sensory Exploitation and the Origin of Communication Signals 70

Sensory Exploitation—or the Retention of
Ancestral Traits? 74

The Panda Principle 76

The Behavioral Ecology of Communication 77

Adaptationist Hypotheses for the Hyena's
Pseudopenis 79

Another Darwinian Puzzle: The Adaptive Value of
Threat Displays 81

The Honest Signal Hypothesis 82

Self-Sacrificing Communication? 86

The Darwinian Puzzle of Deception 88

The Manipulation of Communication Systems 90

One More Darwinian Puzzle: Eavesdropping 93

Summary 97

Suggested Reading 98

CHAPTER 5

Avoiding Predators and Finding Food 101

The Definition of Adaptation 103

Testing Adaptationist Hypotheses 104

The Comparative Method 106

A Cost-Benefit Approach to Social Defenses 110

Game Theory and Social Defenses 113

A Cost-Benefit Approach to Cryptic Behavior 115

The Darwinian Puzzle of Conspicuous Behavior 118

Optimality Theory and Antipredator Behavior 122

Optimality Theory and Foraging Decisions 124

How to Choose an Optimal Mussel 128

Criticisms of Optimal Foraging Theory 129

Game Theory, Feeding Behavior, and Another Darwinian Puzzle 132

Behavioral Variation and Conditional Strategies 134

Summary 136

Suggested Reading 137

CHAPTER 6

The Evolution of Habitat Selection, Territoriality, and Migration 139

Habitat Selection and Ideal Free Distribution Theory 140

When to Invest in Territorial Defense 142

Territoriality and Resource-Holding Power 145

Why Give Up Quickly When Fighting for a
Territory? 146

Contest Resolution via Nonarbitrary Means 148

Resource Value and Payoff Asymmetries 150

- The Dear Enemy Effect 151
- Dispersal and Migration 153**
 - The History of Migration 156
 - The Costs of Migration 159

CHAPTER 7

The Evolution of Reproductive Behavior 171

- Sexual Selection and Bowerbird Behavior 172**
 - Sexual Differences Theory 175
- Sexual Selection and Parental Investment 177**
 - Testing Sexual Differences Theory 178
- Sexual Selection and the Competition for Mates 181**
 - Alternative Mating Tactics 183
 - Why Settle for Less? 184
 - The Coexistence of Alternative Mating Strategies 188
- Sexual Selection and Sperm Competition 190**
 - Why Stay with a Female after Mating with Her? 193

CHAPTER 8

The Evolution of Mating Systems 217

- Is Male Monogamy Adaptive? 218**
 - Male Monogamy in Mammals 222
 - Male Monogamy in Birds 224
- Monogamous Males, Polyandrous Females 227**
- What Do Females Gain from Polyandry? 230**
 - Polyandry and Good Genes 232
 - Polyandry and Genetic Compatibility 234
 - Polyandry and Social Insects 237

- Polyandry and Material Benefits 238
- Why Are There So Many Kinds of Polygynous Mating Systems? 241**
 - Female Defense Polygyny 241
 - Resource Defense Polygyny 243
 - Scramble Competition Polygyny 246
 - Lek Polygyny 247
- Summary 254**
- Suggested Reading 255**

Glossary 457

Bibliography 463

Index 505

CHAPTER 9

The Evolution of Parental Care 257

The Cost-Benefit Analysis of Parental Care 258

Why More Care by Mothers than by Fathers? 259

Why Are Any Males Paternal? 263

Why Do Male Water Bugs Do All the Work? 264

Discriminating Parental Care 267

Why Adopt Genetic Strangers? 270

The History of Interspecific Brood Parasitism 274

Why Accept a Parasite's Egg? 278

The Puzzle of Parental Favoritism 281

Killer Siblings 284

Parental Behavior in Relation to Offspring Value 287

Summary 290

Suggested Reading 291

CHAPTER 10

Proximate and Ultimate Causes of Behavior 293

Connecting the Four Levels of Analysis 294

The Proximate and Ultimate Causes of Monogamy in Prairie Voles 296

The Proximate Causes of Bird Song 299

Social Experience and Song Development 302

Bird Brains and Bird Songs 304

How the Avian Song Control System Works 305

The Ultimate Causes of Bird Songs 308

The Adaptive Value of Song Learning 311

Adaptive Repertoire Matching 315

Female Preferences and Song Learning 316

Proximate and Ultimate Causes Are Complementary 319

Summary 321

Suggested Reading 321

CHAPTER 11

The Development of Behavior 323

The Nature or Nurture Misconception 324

The Interactive Theory of Development 324

Learning Requires Both Genes and Environment 329

Environmental Differences Can Cause Behavioral Differences 332

Genetic Differences Can Also Cause Behavioral Differences 334

Single Gene Effects on Development 338

Evolution and Behavioral Development 341

Adaptive Developmental Homeostasis 342

Adaptive Developmental Switch Mechanisms 345

The Adaptive Value of Learning 349

Summary 356

Suggested Reading 357

CHAPTER 12

Evolution, Nervous Systems, and Behavior 359

Complex Responses to Simple Stimuli 360

How Moths Avoid Bats 363

Detecting, Processing, and Responding to Ecologically Significant Stimuli 370

Selective Relaying of Sensory Inputs 374

Responding to Relayed Messages 376

The Proximate Basis of Stimulus Filtering 379

Stimulus Filtering via Cortical Magnification 381

The Evolution of Cognitive Skills 384

Summary 389

Suggested Reading 389

CHAPTER 13

How Neurons and Hormones Organize Behavior 391

Neural Command and Control 392

Daily Changes in Behavioral Priorities 395

How Do Circadian Mechanisms Work? 397

Seasonal and Annual Cycles of Behavior 401

Social Conditions and Changing Priorities 409

Hormonal Modulation of Behavior 411

Hormones and Reproductive Behavior 413

The Costs of Hormonal Regulation 416

Summary 420

Suggested Reading 420

CHAPTER 14

The Evolution of Human Behavior 423

Language and the Four Levels of Analysis 424

The History of Human Speech 425

The Neurophysiology of Speech 426

The Adaptive Value of Speech 429

The Evolutionary Analysis of Mate Choice 432

Mate Choice by Women 432

Mate Choice by Men 438

The Evolutionary Analysis of Sexual Conflict 441

Coercive Sex 446

Practical Applications of Evolutionary Theory 449

The Triumph of an Evolutionary Analysis of Human Behavior 452

Summary 454

Suggested Reading 455

Glossary 457

Bibliography 463

Illustration Credits 503
