Foreword	xxiii
Preface	xxv
Introduction	1
1 Biological invasions in inland waters: an overview	3
<i>Francesca Gherardi</i>	
Distribution of invaders	27
2 Invasive crustaceans in European inland waters	29
<i>David M. Holdich and Manfred Pöckl</i>	
3 Non-indigenous freshwater crabs in France: a new occurrence of a potamid near Nice	77
<i>Pierre Y. Noël and Danièle Guinot</i>	
4 Status and ecosystem interactions of the invasive Louisianan red swamp crayfish <i>Procambarus clarkii</i> in East Africa	91
<i>John Foster and David Harper</i>	

5	Non-indigenous freshwater molluscs and their distribution in Italy	103
	<i>Simone Cianfanelli, Elisabetta Lori, and Marco Bodon</i>	
6	Non-indigenous animal species naturalized in Iberian inland waters	123
	<i>Emili García-Berthou, Dani Boix, and Miguel Clavero</i>	
7	An overview of the natural history of non-indigenous amphibians and reptiles	141
	<i>Riccardo Scalera</i>	
8	The red-eared slider (<i>Trachemys scripta elegans</i>) in Asia: a review	161
	<i>Neil F. Ramsay, Pek Kaye Abigayle Ng, Ruth M. O'Riordan, and Loke Ming Chou</i>	
9	Semiaquatic mammals introduced into Italy: case studies in biological invasion	175
	<i>Sandro Bertolino and Piero Genovesi</i>	
10	Invasions by plants in the inland waters and wetlands of Africa	193
	<i>Geoffrey W. Howard and Florence W. Chege</i>	
11	Non-indigenous aquatic and semiaquatic plant species in France	209
	<i>Gabrielle Thiébaud</i>	
	Profiles of invaders	231
12	Ecological traits of aquatic NIS invading Austrian fresh waters	233
	<i>Leopold Füreder and Manfred Pöckl</i>	

13	Growth and reproduction of the goldfish <i>Carassius auratus</i> : a case study from Italy	259
	Massimo Lorenzoni, Massimiliano Corboli, Lucia Ghetti, Giovanni Pedicillo, and Antonella Carosi	
14	Epigenetic context in the life history traits of the round goby, <i>Neogobius melanostomus</i>	275
	Mária Balážová-L'avrinčíková and Vladimír Kováč	
15	Growth and life history traits of introduced pumpkinseed (<i>Lepomis gibbosus</i>) in Europe, and the relevance to its potential invasiveness	289
	Gordon H. Copp and Michael G. Fox	
16	The biological flexibility of the pumpkinseed: a successful colonizer throughout Europe	307
	Jozef Tomeček, Vladimír Kováč, and Stanislav Katina	
	Patterns and pathways of invasions	337
17	Marine vs. freshwater invaders: is shipping the key vector for species introductions to Europe?	339
	Stephan Gollasch	
18	Modeling biological invasions of inland waters	347
	Hugh J. MacIsaac, Leif-Matthias Herborg, and Jim R. Muirhead	
19	Biomonotony: definition and assessment for macroinvertebrates in European running waters	369
	Jean-Nicolas Beisel and Simon Devin	
20	Genetics and invasion biology in fresh waters: a pilot study of <i>Procambarus clarkii</i> in Europe	381
	Silvia Barbaresi, Francesca Gherardi, Alessio Mengoni, and Catherine Souty-Grosset	

21	Do estuaries act as saline bridges to allow invasion of new freshwater systems by non-indigenous fish species?	401	30
	<i>F. Anne Brown, Dawn M. Scott, and Rod W. Wilson</i>		María Angel
22	Which factors determine non-indigenous fish dispersal? A study of the red piranha in tropical Brazilian lakes	415	31
	<i>Anderson O. Latini and Miguel Petrere Jr.</i>		
23	The relationship between biodiversity and invasibility in central Swedish lakes invaded by <i>Elodea</i> species	423	Jessica
	<i>Daniel Larson and Eva Willén</i>		32
	Impacts of invaders	435	Tisza L
24	Measuring the impact of freshwater NIS: what are we missing?	437	33
	<i>Francesca Gherardi</i>		Antonio and Ma
25	Invasion of the Baltic Sea basin by the Ponto-Caspian amphipod <i>Pontogammarus robustoides</i> and its ecological impact	463	Manag
	<i>Justas Arbačiauskas and Simona Gumuliauskaitė</i>		34
26	Changes in the aquatic systems of north-eastern Europe after invasion by <i>Gmelinoides fasciatus</i>	479	Piero Ge
	<i>Andzhda A. Berezina</i>		35
27	The predatory impact of <i>Dikerogammarus villosus</i> on fish	495	Vadim E. Andrew A
	<i>Andrea Casellato, Alessandra Visentin, and Giovanni La Piana</i>		36
28	Understanding the impact of invasive crayfish	507	David A. N
	<i>Francesca Gherardi</i>		
	Predation of invasive crayfish on aquatic vertebrates: the effect of <i>Procambarus clarkii</i> on fish assemblages in Mediterranean temporary streams	543	
	<i>María Ilhéu, João Manuel Bernardo, and Silvia Fernandes</i>		

- 30 Assessing the trophic ecology of crayfish: a case study of the
invasive *Procambarus clarkii* 559

*Maria Crehuet, Paloma Alcorlo, Miguel Angel Bravo-Utrera,
Angel Ballanás, and Carlos Montes*

- 31 Introduction and spread of crayfish (Parastacidae)
in Western Australia and their potential to displace
indigenous species 577

Jessica Lynas, Andrew Storey, and Brenton Knott

- 32 The zebra mussel *Dreissena polymorpha*:
reproduction and competition with the sponge
Ephydatia fluviatilis 597

Tisza Lancioni and Elda Gaino

- 33 Seasonal effects on the antioxidant response and metal
accumulation of *Dreissena polymorpha* 613

*Antonia C. Elia, Ambrosius J. M. Dörr, Marino Prearo,
and Maria C. Abete*

Managing invasions 625

- 34 Towards a European strategy to halt biological invasions
in inland waters 627

Piero Genovesi

- 35 A risk assessment of biological invasions in the inland
waterways of Europe: the Northern Invasion Corridor
case study 639

*Vadim E. Panov, Yury Yu. Dgebuadze, Tamara A. Shiganova,
Andrew A. Filippov, and Dan Minchin*

- 36 Logistics of shipboard and dockside testing of ballast water
treatment systems in the United States 657

David A. Wright

37	Virtues and shortcomings of EU legal provisions for managing NIS: <i>Rana catesbeiana</i> and <i>Trachemys scripta elegans</i> as case studies	669
Riccardo Scalera		
8	Problems and opportunities managing invasive Bullfrogs: is there any hope?	679
Michael J. Adams and Christopher A. Pearl		
Concluding remarks		695
9	A role for scientists	697
Francesca Gherardi
