Part I Hermeneutic Nature of the World

In Quest of the Magic Strings	1
1 Roots of Rationality and Hermeneutics	7
Hermeneutics of the Natural, <i>or</i> how Things Arise	8
Religious Preconditions and Contexts in Comprehending <i>Physis</i>	10
Product	15
To Discriminate According to <i>Physis</i>	17
Generations	18
Necessity and Chance, Destiny and Freedom	18
<i>Physis</i> , Mathematics, and Moral	20
<i>Physis</i> is Temporal and has a Memory	21
<i>Physis</i> is Flesh	23
Species and Logical Ideals – Possibility of Logical Articulation	26
Plato's Divided Line as a Map of Relations Between Archetypes and Imitations	27
2 Co-creators of the World	31
Singularities and Darwin	33
The Sphere	35
3 Novelty Wherefrom?	55
Science and Novelty	55
The Grave of the Soul?	57
<i>Unde Novum</i> in Philosophy	59
Language	61
Signification	64
Body as a Sign – Compared to Letter-Signs	65
Self-Reference of Letter-Signs	66
Likeness	67
Likeness as a Totality of Features	70
Genidentity and Entelechy	71

To be Like Self	73
Whence the New?	74
Classification	75
Clare et Distincte	78
What is it Like to be Me?	78
Abstractions	80
Logos Incarnate	81
Semiotic Coherence	82
Becoming	84
Speciation	85
Every World has its Own Time	87
Vestiges of Creation	88
4 Aut Moses aut Darwin. Creation Versus Evolution	91
The Questionnaire	91
Answering the Poll	92
The Controversy Around Darwin as a Symptom	96
Things and Objects	97
Contest of Likenesses as a Manifestation of will to Power, i.e. the Struggle for Life	98
Genesis and Phylogenesis	100
Empirical not Rational	102
This is not Science	102
The Return to Natural Understanding – Evolutionary Nature of Science ...	105
Logos as a Historical Contingency	106
Evolutionism as Reformation and Renaissance	107
Evolution as Religion	108
The Turn of Evolutionism Towards Naturalness: Discovery of Corporeality and of History	110
Nature as Narration	113
History	115
Being from the Beginning	118
The Turn of Ages	119
Ecological Order	121
There is Only One Single Truth: Each Truth is Single	123
The Archetypal Essence of the Clash	124
The War of Giants	126
Part II The Region Life	
Emergence of Pattern	129
5 The Living Planet	137
Feedback and its Embodiment	138
Neo-Darwinism and Gaia	141

Gene pool, Communication, Body	142
Communication Networks	148
Multicellular and Multispecies Structures	149
Small World of Complex Systems, and Their Modelling by Graphs	150
Fitness Landscapes and Regioning	154
6 What is the Source of Likeness?	157
Short Glossary	158
How the Terms Homology and Analogy Got Their Recent Meaning: A Brief History	159
Troubles with Levels of Description	161
Continuity of Information, Genes, and Structures	162
Structures and Traits; Ideas and IDs	164
Unity of Semantic Field	167
External Appearances	168
Back to Letter-Signs (ID) and Shapes (IDea)	171
Biosemiotic Interpretation of Portmannian Biology	175
7 Creation and Its Vestiges	179
Species as a Cultural Phenomenon	179
What is Passed Down?	182
The Sheaf	185
Cultural Parables	187
The Ghosts of Common Ancestors	188
