

Preface to the First Edition **Contents**

Preface to the First Edition	ix
Preface to the Second Edition	xi
Supplemental Material	xii
1 Introduction	1
2 Units and Amounts	11
3 Preparation of Solutions and Dilutions	31
4 Relative Molecular Mass and Stoichiometry	45
5 Acids, Bases, and Buffers	53
6 Polarimetry	77
7 Enzyme Amounts	83
8 Enzyme Kinetics	91
9 Colorimetry and Spectrophotometry	109
10 Lipid Analysis	125
11 Tissue and Fluid Content	131
12 Practical Calculations	139
13 DNA and Molecular Biology	151
14 Pharmaceutical Calculations	161
Appendix 1 Units and Their Conversions	167
Suggested Reading and Bibliography	173
Index	175
