

Contents

Preface.....	v
Editors.....	vii
Contributors	ix
Chapter 1 Microbiology of Antarctic Terrestrial Soils and Rocks	1
<i>Donald A. Cowan, Nuraan Khan, Caroline Heath, and Moola Mutondo</i>	
Chapter 2 Archaeal Diversity in Antarctic Ecosystems	31
<i>Jackie Aislabie and John P. Bowman</i>	
Chapter 3 Bacterial Biodiversity of Antarctica: Conventional Polyphasic and rRNA Approaches	61
<i>Sisinthy Shivaji and G.S.N. Reddy</i>	
Chapter 4 L.I.F.E. in Antarctic Lakes.....	95
<i>Birgit Sattler and Michael C. Storrie-Lombardi</i>	
Chapter 5 Psychrophilic and Psychrotolerant Microbial Extremophiles in Polar Environments	115
<i>Richard B. Hoover and Elena V. Pikuta</i>	
Chapter 6 Cold Adaptation in Antarctic Biodegradative Microorganisms	157
<i>Asim K. Bej and Nazia Mojib</i>	
Chapter 7 Possible Role of Bacteriophage-Mediated Horizontal Gene Transfer on Microbial Adaptation to Environmental Stressors in Polar Ecosystems	179
<i>Michael C. Storrie-Lombardi and Shannon J. Williamson</i>	
Chapter 8 Sources of Organic Matter for the Archean Cryosphere	201
<i>Perry A. Gerakines and Michael C. Storrie-Lombardi</i>	

Chapter 9	Response of Polar Soil Bacterial Communities to Fuel Spills.....	215
	<i>Jackie Aislabie and Julia M. Foght</i>	
Chapter 10	Microbial Degradation of Petroleum Compounds in Cold Marine Water and Ice	231
	<i>Odd G. Brakstad, Andrew M. Booth, and Liv-Guri Faksness</i>	
Chapter 11	Potential for Microbial Biodegradation of Polychlorinated Biphenyls in Polar Environments.....	255
	<i>Angelina Lo Giudice, Vivia Bruni, and Luigi Michaud</i>	
Chapter 12	Tolerance of Antarctic Soil Fungi to Hydrocarbons and Their Potential Role in Soil Bioremediation.....	277
	<i>Kevin A. Hughes and Paul Bridge</i>	
Chapter 13	Do Fertilizers Help in Effective Bioremediation of Polycyclic Aromatic Hydrocarbons in Polar Soils?.....	301
	<i>Daniel Delille, Emilien Pelletier, and Frédéric Coulon</i>	
Chapter 14	Bioremediation of Contaminated Sites in the Canadian Arctic: Monitoring Performance and the Effects of Biostimulation Using Molecular Methods	319
	<i>Charles W. Greer</i>	
Chapter 15	Occurrence, Distribution, and Nature of Hydrocarbon-Degrading Genes in Biodegradative Microorganisms from the Antarctic Environment.....	339
	<i>Adriana Philippi Luz, Emanuele Kuhn, and Vivian Helena Pellizari</i>	
Chapter 16	Potential Use of Real-Time PCR to Assess Changes in the Microbial Population Structure and Function during Bioremediation of Polar Soils	357
	<i>Shane M. Powell</i>	
Chapter 17	Microbial Bioremediation in Polar Environments: Current Status and Future Directions.....	373
	<i>Ronald M. Atlas</i>	
Index		393
