preface.....	xi
acknowledgments	xv
about the author.....	xvii

1 important biological features 1

introduction	1
habitat and geography	2
behavior	4
anatomic and physiologic features	6
General Features	6
Integument	7
Sensory	9
Gastrointestinal and Excretory	10
Reproduction	11
Respiratory	12
Cardiovascular	14
Thermoregulation	16
Longevity	17
Aestivation.....	17
references.....	17

2 husbandry..... 19

introduction	19
macroenvironment	20
microenvironment	22
Housing Systems and Water Sources	22
Static/Closed Systems	24

Flow-Through Systems.....	23
Modular/Recirculating Systems.....	27
Filtration Systems and UV Water Sanitation Systems	29
Mechanical Filtration.....	29
Biological Filtration.....	31
Chemical Filtration	33
Ultraviolet Sterilization	34
water quality	35
pH	36
Alkalinity.....	37
Temperature	38
Conductivity	40
Hardness	40
Ammonia (NH ₃)	41
Nitrate and Nitrite	42
Chlorine/Chloramines	42
Dissolved Oxygen.....	43
Total Dissolved Gases—Percent Saturation (TDG%)	44
Carbon Dioxide.....	44
Water Clarity	45
Miscellaneous Water Toxicants	45
Monitoring Water Quality.....	45
stocking density	47
photoperiod	48
nutrition.....	51
Types of Food	51
Frequency of Feeding	53
How Much to Feed	53
sanitation.....	54
environmental enrichment	55
identification	56
transportation of <i>Xenopus</i>	57
record keeping.....	58
references.....	59
3 management.....	63
regulations and regulatory agencies	63
occupational health and safety: injury and zoonotic risks	64
references	66

4 veterinary care	69
physical examination	69
quarantine	70
clinical problems	71
Bacterial Infections	74
Red leg syndrome	74
<i>Chryseobacterium</i> (formerly called	
<i>Flavobacterium</i>) spp.	75
<i>Mycobacterium</i> spp.	80
<i>Chlamydia</i> spp.	81
Viral Infections	84
Ranavirus	84
Lucke herpesvirus	85
Fungal Infections	85
<i>Batrachochytrium dendrobatidis</i>	85
<i>Saprolegnia</i> spp. and other water molds	87
Parasitic Infections	90
<i>Pseudocapillarioides xenopi</i> (<i>Capillaria xenopodis</i>)	90
<i>Rhabdias</i> (strongyloid lungworms)	92
<i>Cryptosporidia</i>	93
Acariasis (mites)	93
noninfectious diseases and conditions	94
Dehydration and Desiccation	94
Gas Bubble Disease	95
Chlorine/Chloramine Toxicities	98
Neoplasia	100
Rectal and Cloacal Prolapses	100
Gout	101
Skeletal Deformities	101
Bite Wounds	102
Ovarian Hyperstimulation Syndrome	103
Thermal Shock	104
Poor Egg Production, Poor Egg Quality	104
diagnosis of infectious diseases in laboratory <i>Xenopus</i>	106
general comments on the treatment of infectious diseases ...	107
treatment of general trauma and abrasions	109
anesthesia	110
Tricaine Methanesulfonate (MS-222)	110
Benzocaine Gel	111

Ketamine	112
Eugenol (Clove Oil)	112
Propofol	112
aseptic surgery	112
analgesics and post-operative care	114
euthanasia	115
references	117
5 experimental methodology	125
catching and handling <i>Xenopus</i>	125
compound administration techniques	126
blood sample collection and interpretation	128
Blood Sample Collection	128
Processing the Samples	130
<i>Xenopus</i> hemocytology: characteristics	131
interpretation of the hemogram and serum clinical chemistries	134
egg/oocyte collection	134
Surgical Laparotomy for Egg/Oocyte Harvest from <i>Xenopus</i>	137
raising <i>Xenopus</i> tadpoles	138
necropsy	140
Necropsy Equipment	140
Necropsy Technique	141
references	144
6 resources	147
organizations	147
electronic resources	148
Electronic Resources for <i>X. tropicalis</i>	148
Electronic Resources for <i>X. laevis</i>	149
Guidelines and Protocols for Harvesting Oocytes	149
Additional Guidelines	149
periodicals	150
books	151
vendor contact information	151
Microchips	151
Carriers Who Will Ship <i>Xenopus</i>	152
Frog Suppliers (Frogs and Food)	152
Modular Housing for Laboratory <i>Xenopus</i>	153
