Foreword.....	ix
Preface.....	xi
Acknowledgments.....	xiii
Editor	xv
Contributors	xvii

SECTION I Basic Science Tools for Mechanobiology Research

Chapter 1 An Introductory Guide to Solid Mechanics.....	3
<i>Sarah C. Baxter</i>	
Chapter 2 Fluid Mechanics	23
<i>Tiffany Camp and Richard Figliola</i>	
Chapter 3 Molecular Analysis in Mechanobiology	45
<i>Ken Webb and Jeoung Soo Lee</i>	

SECTION II (Part 1) Literature Review of Mechanobiology Research Findings and Theories: Cardiovascular Systems

Chapter 4 Effects of Endovascular Intervention on Vascular Smooth Muscle Cell Function	75
<i>Brad Winn, Bethany Acampora, Jiro Nagatomi, and Martine LaBerge</i>	
Chapter 5 Effects of Pressure on Vascular Smooth Muscle Cells	95
<i>Sheila Nagatomi, Harold A. Singer, and Rena Bizios</i>	
Chapter 6 Mechanobiology of Heart Valves.....	107
<i>Joshua D. Hutcheson, Michael P. Nilo, and W. David Merryman</i>	
Chapter 7 Mechanobiology of Cardiac Fibroblasts	127
<i>Peter A. Galie and Jan P. Stegemann</i>	

- Chapter 8** Mechanobiological Evidence for the Control of Neutrophil Activity by Fluid Shear Stress 139
Hainsworth Y. Shin, Xiaoyan Zhang, Aya Makino, and Geert W. Schmid-Schönbein

SECTION II (Part 2) Literature Review of Mechanobiology Research Findings and Theories: Musculoskeletal Systems

- Chapter 9** Skeletal Mechanobiology 179
Alesha B. Castillo and Christopher R. Jacobs
- Chapter 10** Mechanical Control of Bone Remodeling 207
Natasha Case and Janet Rubin
- Chapter 11** Cartilage Mechanobiology 229
Hai Yao, Yongren Wu, and Xin L. Lu
- Chapter 12** Cell Mechanobiology: The Forces Applied to Cells and Generated by Cells 253
Bin Li, Jeen-Shang Lin, and James H.-C. Wang

SECTION II (Part 3) Literature Review of Mechanobiology Research Findings and Theories: Other Organ Systems

- Chapter 13** Pulmonary Vascular Mechanobiology 277
Diana M. Tabima and Naomi C. Chesler
- Chapter 14** Lung Mechanobiology 305
Daniel J. Tschumperlin, Francis Boudreault, and Fei Liu
- Chapter 15** Mechanical Signaling in the Urinary Bladder 327
Aruna Ramachandran, Ramaswamy Krishnan, and Rosalyn M. Adam
- Chapter 16** Mechanobiology of Bladder Urothelial Cells 349
Shawn Olsen, Kevin Champaigne, and Jiro Nagatomi

Chapter 17 The Mechanobiology of Aqueous Humor Transport across Schlemm's Canal Endothelium	367
<i>Darryl R. Overby</i>	

Chapter 18 Mechanobiology in Health and Disease in the Central Nervous System.....	391
<i>Theresa A. Ulrich and Sanjay Kumar</i>	

SECTION II (Part 4) Literature Review of Mechanobiology Research Findings and Theories: Frontiers of Mechanobiology

Chapter 19 Mechanostimulation in Bone and Tendon Tissue Engineering.....	415
<i>Samuel B. VanGordon, Warren Yates, and Vassilios I. Sikavitsas</i>	

Chapter 20 Mechanobiology in the Stem Cell Niche: Integrating Physical and Chemical Regulation of Differentiation	439
<i>Wilda Helen and Adam J. Engler</i>	

Chapter 21 Mesenchymal Stem Cell Mechanobiology.....	457
<i>Wen Li Kelly Chen and Craig A. Simmons</i>	

Chapter 22 The Use of Microfluidic Technology in Mechanobiology Research.....	477
<i>Brittany Ho McGowan, Sachin Jambovane, Jong Wook Hong, and Jiro Nagatomi</i>	

Chapter 23 Design of Abdominal Wall Hernioplasty Meshes Guided by Mechanobiology and the Wound Healing Response	499
<i>Shawn J. Peniston, Karen J.L. Burg, and Shalaby W. Shalaby</i>	

Index	519
