

Contents

Preface

v

I. General and Cellular Aspects

1. **MicroRNAs and Cytokines** 3
Xiangde Liu
2. **Cytokines and Tight Junctions** 17
Christopher T. Capaldo and Asma Nusrat
3. **Cytokine Networks and MAPKs—Toward New
Therapeutic Targets for Rheumatoid Arthritis** 31
Zafar Rasheed, Nahid Akhtar and Tariq M. Haqqi

II. Life Style Factors and Life Events

4. **Exercise, Cytokines and Tissue Repair** 47
*Chunming Dong, Liyong Wang and
Pascal J. Goldschmidt-Clermont*
5. **Cytokines in Alcoholics** 63
E. González-Reimers and F. Santolaria-Fernández
6. **Cytokines in the Elderly** 79
Dimitrios Adamis

III. Immunology and Infections

7. **Cytokine Production by T Helper Subsets in Response to
Infection and Their Role in Health and Disease** 93
*Courtney C. Kurtz, Jeffrey M. Wilson, Steven G. Black
and Peter B. Ernst*
8. **Cytokine Production in Viral Infection** 107
Monica Tomaszewski and Frank J. Jenkins
9. **Cytokines in Pulmonary Tuberculosis** 123
Katharina Ronacher, Joel Fleury Djoba-Siawaya and Gerhard Walzl

10. **HIV and Cytokines: An Immunopatho-Genetic Liaison** 139
Luca Cassetta, Guido Poli and Massimo Alfano

11. **NK Cells and Cytokines in Health and Disease** 155
Rizwan Romee and Jeffrey S. Miller

IV. Cancer

12. **Cytokines and Lung Cancer** 173
Masaaki Tamura, Deryl Troyer, Dharmendra K. Maurya, Atsushi Kawabata, and Raja Shekar Rachakatla

13. **Cytokines and Breast Cancer** 189
Jonna Frasor

14. **Cancer Immunotherapy and Cytokines** 203
Masoud H. Manjili, Maciej Kmiecik and Rose H. Manjili

15. **Chemotherapeutic Drugs and Cytokines** 217
Elieser Gorelik, Anna Lokshin and Vera Levina

V. Cardiovascular and Metabolic Disease

16. **Inflammatory Cytokines and Cardiovascular Risk** 235
Gordon Lowe, Paul Welsh, Ann Rumley, and Naveed Sattar

17. **Angiogenic Cytokine Therapy for Ischemic Heart Disease** 251
William Hiesinger and Y. Joseph Woo

18. **Cytokines and Diabetes** 279
Kate L. Graham and Helen E. Thomas

19. **Pro-Inflammatory Cytokines in Response to Glycemic Excursions of Hypo- and Hyperglycemia** 295
A.E. Kitabchi, L.N. Razavi, B.A. Larijani and E. Taheri

20. **Cytokines in Metabolic Syndrome— Adipose Tissue as a Key Contributor** 307
Marjukka Kolehmainen and Pirkka Kirjavainen

VI. Organs and Tissue Systems

21. **Cytokines and Alzheimer's Disease** 329
Lucia Velluto, Carla Iarlori, Domenico Gambi and Marcella Reale

22. **Parkinson's Disease and Cytokines** 343
Carla Iarlori, Domenico Gambi and Marcella Reale

23. Cerebrospinal Fluid Cytokines and their Change in Herpes Simplex Virus Encephalitis	357
<i>Satoshi Kamei</i>	
24. Cytokines in Skeletal Muscle Insulin Resistance	369
<i>Adam Whaley-Connell, Vincent G. DeMarco and James R. Sowers</i>	
25. Cytokines and Bone	385
<i>Patrizia D'Amelio</i>	
26. Cytokines in Rheumatoid Arthritis	403
<i>Ivan V. Shirinsky and Valery S. Shirinsky</i>	
<i>Index</i>	<i>419</i>
<i>About the Editors</i>	<i>425</i>
<i>Color Plate Section</i>	<i>427</i>
