

CONTENTS

<i>Preface</i>	ix
PART I INTRODUCTION	1
Chapter 1 Bird Migration and Global Change: The Birds and the Issues	3
PART II THE CHANGING ENVIRONMENT	19
Chapter 2 Global Climate Change	21
Chapter 3 Global Climate Change and Alteration of Migratory Bird Habitats	37
Chapter 4 Other Global Change Threats to Migratory Bird Habitats	51
PART III ECOLOGICAL RESPONSES OF MIGRATORY BIRDS TO GLOBAL CHANGE	65
Chapter 5 Physical and Biotic Challenges to Migratory Bird Responses	67
Chapter 6 Northern Hemisphere Land Birds: Short-distance Migrants	81
Chapter 7 High-latitude Land Birds: Nearctic–Neotropical Migrants	97
Chapter 8 High-latitude Species of Land Birds: Palearctic Long-distance Migrants	111
Chapter 9 Land Birds of the Temperate Southern Hemisphere	125
Chapter 10 Tropical Land Birds	135
Chapter 11 Raptors	145
Chapter 12 Shorebirds	155

Chapter 13	Waterfowl and Other Waterbirds	169
Chapter 14	Oceanic Birds: Northern Atlantic, Baltic, and Mediterranean Regions	183
Chapter 15	Oceanic Birds: North Pacific	193
Chapter 16	Oceanic Birds: Southern Hemisphere	203
PART IV	EVOLUTIONARY RESPONSES OF MIGRATORY BIRDS	213
Chapter 17	Land Birds: Evolutionary Adaptability	215
Chapter 18	Waterbirds: Evolutionary Adaptability	227
PART V	PROSPECTS	237
Chapter 19	Capacity for Adjustment by Migratory Birds	239
Chapter 20	Conservation in an Era of Global Change	249
<i>Appendix 1</i>	<i>Common and Scientific Names of Species Discussed in the Text</i>	263
<i>Index</i>		281
