

CONTENTS

Preface		vii
Expert Commentary		
Commentary A	OCT-3/4 Expressing Cells as Cancer Stem Cells in Human Immature Teratoma: Cancer Differentiation Potential <i>Akira Hara, Naoki Oka, Hitomi Aoki, Ayako Taguchi, Yasuhiro Yamada, Masayuki Niwa and Hideki Mori</i>	1
Research and Review Articles		
Chapter I	Therapeutic Potential of Differentiation in Cancer and Normal Stem Cell <i>Juan Antonio Marchal, Houria Boulaiz, Macarena Peran, José Carlos Prados, Joaquín Campos, F. Jesús González, Fernando Rodríguez-Serrano, Consolación Melguizo, Celia Vélez, Esmeralda Carrillo, Fidel Hita, Raúl Ortiz, Antonio Martínez-Amat, Octavio Caba, Carlo Ventura and Antonia Aránega</i>	7
Chapter II	Antioxidants in Differentiation of Leukemic Cells <i>Guillermo López-Lluch, Emilio Siendones, Daniel J. Moreno Fernández-Ayala and Plácido Navas</i>	79
Chapter III	Cancer Cell + Stem Cell = Cancer Stem Cell <i>Jeanette Seidel, Emilio Batistin, Sarah Schwitala, Bernd Niggemann, Kurt S. Zänker and Thomas Dittmar</i>	117
Chapter IV	Trends in the Neural Transdifferentiation of Bone Marrow-Derived Stem Cells <i>Paul Lu and Tonya Mead</i>	153
Chapter V	3D Modelling of Epithelial Glandular Differentiation and the Stem Cell Niche <i>J.F. Pearson and S.H. Lang</i>	183

Chapter VI	Regulation of Mast Cell Development and Apoptosis by Th1 and Th2 Cytokines <i>Zhi-Qing Hu, Wei-Hua Zhao and Tadakatsu Shimamura</i>	213
Chapter VII	The Big Brother of Blood: The need for Constant Video Surveillance of Individual Cells <i>Erin Drew and Timm Schroeder</i>	229
Chapter VIII	Cell Differentiation of Ectomesenchymal Dental Cells <i>C. Morsczeck</i>	247
Chapter IX	Follicle Cell Differentiation in the Wall Lizard <i>Podarcis Sicula</i> <i>Chiara Maria Motta, Palma Simoniello, Stefania Tammaro and Silvana Filosa</i>	259
Chapter X	Bone Marrow Stromal Cells Differentiated into Schwann Cells <i>Sai-yun Hou and Jia-kai Zhu</i>	273
Index		283
