
Contents

Preface		vii
Short Communication: β -Amylase in Millet Seeds Germinated Under Acidic Stress <i>Yoshiki Yamasaki</i>		1
Chapter I	Studies on Perilla Relating to Its Essential Oil and Taxonomy <i>Michiho Ito</i>	13
Chapter II	Effects of Natural Polyphenols on Methicillin-Resistant <i>Staphylococcus aureus</i> in Relation to Their Chemical and Physical Properties <i>Tsutomu Hatano, Miwako Kusuda, Mayumi Tsugawa, Shoko Taniguchi, Sumiko Shiota, Tomofusa Tsuchiya and Takashi Yoshida</i>	31
Chapter III	Biosynthesis of Chlorinated Alkaloids in <i>Menispermum dauricum</i> Root Culture <i>Yukihiro Sugimoto and Rieko Hori</i>	49
Chapter IV	Biochemical and Molecular Aspects of Sorbitol Metabolism in Rosaceae Fruit Trees and Other Plants <i>Yoshinori Kanayama, Kunio Yamada, Kazuhisa Kato and Ryo Moriguchi</i>	75
Chapter V	Recent Advances in <i>Brassica oleracea</i> and <i>Brassica rapa</i> Varieties Phenolics <i>Paula B. Andrade, Patrícia Valentão, Carla Sousa, David M. Pereira, Marcos Taveira, Rosa M. Seabra and Federico Ferreres Reviewed by Branca M. Silva</i>	87
Chapter VI	Photooxidative and Autoxidative Degradation of Lipid Components During the Senescence of Phototrophic Organisms <i>Jean-François Rontani</i>	115

Chapter VII	Auraptene: Phytochemical and Pharmacological Properties <i>Francesco Epifano, Salvatore Genovese and Massimo Curini</i>	145
Chapter VIII	Synthesis and Biological Activity of Fluorinated Brassinosteroids <i>Javier A. Ramírez and Lydia R. Galagovsky</i>	163
Chapter IX	Cytotoxic Anticancer Drugs from Medicinal Plants <i>Anh-Tho Nguyen and Pierre Duez</i>	193
Index		209
