

CONTENTS

Preface		vii
Chapter 1	Earthworms as Bioengineers <i>G. Tripathi, N. Kachhwaha, I. Dabi and J. Singh</i>	1
Chapter 2	Soil Biota Associated Litter Decomposition and Nutrient Enrichment <i>G. Tripathi, R. Deora and O. N. Singh</i>	85
Chapter 3	<i>Escherichia coli</i> as a Microbial Indicator of Fecal Contamination in Soils and Surface Waters: Roles of Environmental Biotic and Abiotic Factors in Modulating its Occurrence and Numbers <i>A. Unc and V. S. Springthorpe</i>	123
Chapter 4	Molecular Tools in Microbial Ecology <i>Solange Oliveira, Marta Laranjo and Ana Alexandre</i>	161
Chapter 5	Microorganisms Bioprospection: A New Tendency in Microbial Ecology <i>Elcia Margareth Souza Brito, Leandro Helgueira Andrade, César Augusto Caretta and Robert Duran</i>	185
Chapter 6	The Evolutionary Ecology of Body Size with Special Reference to Allometry and Survivorship <i>C. David Rollo</i>	209
Chapter 7	Spontaneous Pattern Formation and Diversity in Spatially Structured Evolutionary Ecology <i>Hiroki Sayama, Les Kaufman, and Yaneer Bar-Yam</i>	231
Chapter 8	How Influenza A Virus Ecology is Evolving in Wild Birds <i>Mauro Delogu, Maria Alessandra De Marco, Laura Campitelli and Isabella Donatelli</i>	247
Chapter 9	Two Levels of Research in Ecology <i>Klaus G. Hering</i>	265
Index		279
