

CONTENTS

Preface		vii
Chapter 1	Evolutionary Biogeography: Principles and Methods <i>Juan J. Morrone</i>	1
Chapter 2	Connecting Biogeographic Patterns with Energy and Resource Availability in Marine Systems <i>Rui Rosa</i>	63
Chapter 3	Phylogenetic Biogeography of Afrotropical Drosophilidae <i>Amir Yassin and Jean R. David</i>	105
Chapter 4	Hispaniolan Spider Biodiversity and the Importance of Combining Neontological and Palaeontological Data in Analyses of Historical Biogeography <i>David Penney</i>	137
Chapter 5	Bird Fauna along a Rural-Urban Gradient at Regional and Local Scale in Comunidad Valenciana (Spain) <i>Enrique Murgui</i>	175
Chapter 6	Historical Biogeography of Clavatoraceae (Fossil Charophytes) <i>Carles Martín-Closas and Wang Qifei</i>	203
Chapter 7	Biogeography and Citizen-Science <i>Vincent Devictor and Coralie Beltrame</i>	217
Chapter 8	Conservation Biogeography: A Viewpoint from Evolutionary Biogeography <i>Isolda Luna-Vega, Juan J. Morrone and Tania Escalante</i>	229
Index		243
