

CONTENTS

Foreword	<i>S. D. Varfolomeyev and G. E. Zaikov</i>	vii
Chapter 1	Human Enzymes – Genetic, Proteomic and Catalytic Polymorphism <i>S. D. Varfolomeyev, I. N. Kurochkin and I. A. Gariev</i>	1
Chapter 2	Polymorphism of Tumor-Suppressor Genes and Genetic Control of Carcinogenesis <i>M. M. Aslanyan, S. S. Litvinov, E. S. Tsyrendorzhieva and V. A. Tarasov</i>	77
Chapter 3	Association of Candidate Genes Polymorphism with Asthma in Bashkortostan Republic of Russia <i>E. K. Khusnutdinova, A. S. Karunas, U. U. Fedorova and I. R. Gilyazova</i>	101
Chapter 4	Genes and Languages: Is Are There Correlations between MTDNA Data and Geography of Altay and Ural Languages <i>E. Khusnutdinova and I. Kutuev</i>	129
Chapter 5	Common and Special Features of the Human Ribosomal DNA <i>Natalia. S. Kupriyanova and Alexei. P. Ryskov</i>	145
Chapter 6	Ethnic Genomics of the East European Human Populations <i>S. A. Limborska, D. A. Verbenko, A. V. Khrunin and P. A. Slominsky</i>	175
Chapter 7	Retroelement Insertion Polymorphism and Modulation of Human Gene Activity <i>I. Z. Mamedov, S. V. Ustyugova, F. L. Amosova and Y. B. Lebedev</i>	203
Chapter 8	Biomedical Aspects in Investigations of Biochemical Polymorphism of Actins and Some Actin-Binding Proteins <i>S. S. Shishkin, L. I. Kovalev, I. N. Krakhmaleva, M. A. Kovaleva, L. S. Eremina and V. O. Popov</i>	237

Chapter 9	Molecular Mechanisms of Adaptation: Stress and Aggression	281
	<i>A. G. Tonevitsky, N. V. Maluchenko, J. V. Shchegolkova, M. A. Kulikova, M. A. Timofeeva, O. V. Sysoeva, V. A. Shleptsova and A. I. Grigoriev</i>	
Chapter 10	Ethnogenomics: The Genetic History of Humans Written in Chromosomal DNA Markers	299
	<i>L. A. Zhivotovsky and E. K. Khusnutdinova</i>	
Index		325
