

CONTENTS

Preface		vii
Chapter 1	Biotechnology in Hazardous Waste Management <i>M. P. Singh</i>	1
Chapter 2	Proteomics <i>Anju Agrawal and Bechan Sharma</i>	13
Chapter 3	Enriching Biotechnology with Recent Bioinformatics Tools and Protocols <i>Shailendra K. Gupta, Suchi Smita and Qamar Rahman</i>	31
Chapter 4	DNA Biosensor : A Quick Molecular Diagnostic Technique <i>Ashok Kumar and Suman</i>	47
Chapter 5	DNA Fingerprinting and Its Application <i>Varsha Srivastava</i>	65
Chapter 6	Mushroom Biotechnology <i>M. P. Singh, Abhishek K. Srivastava, Sanjay K. Vishwakarma, Vinay K. Singh and Vivek K. Pandey</i>	77
Chapter 7	Differentiation to Dedifferentiation: Induced Pluripotent Stem Cells <i>Narendra Pratap Singh and Rakesh K Mishra</i>	87
Chapter 8	Stem Cell Research: Prospects and Retrospects <i>Devendra Kumar Rai, Anju Agarwal and B. Sharma</i>	101
Chapter 9	Ethics and Biotechnology <i>Arun Kumar Singh and Sarita Singh</i>	121
Chapter 10	In Vivo Induced Antigen Technology <i>Brahm S. Srivastava and Ranjana Srivastava</i>	127
Chapter 11	Immobilization Technology: The Actual Trend in Biotechnology <i>R. Sharma and R. Singh</i>	137

Chapter 12	A Biocatalytic Approach for Production of 7-Aminocephalosporanic Acid	147
	<i>V. K. Nigam, K. Kundu and P. Ghosh</i>	
Chapter 13	Thymic Peptides: Hormones with Biological Response Modifying Potential and Multi-Utility Therapeutic Application in Life Threatening Pathologies	169
	<i>Naveen Kumar Vishvakarma, Pratima Shrivastava and Sukh Mahendra Singh</i>	
Chapter 14	Cyanobacteria: A Potential but Neglected Tools for Biotechnological Processes	191
	<i>Ashwani K Rai, S P Tiwari, Naveen Sharma, Anuradha Rai and Anurag Mishra</i>	
Index		209
